From A. J. Muste, national secretary of the Workers Party, comes further word of the tour he and James P. Cannon, editor of the New Militant, are making to present the program of the W.P. to the workers of the country. **Reports** indicate that Comrades Muste and Cannon's tour is a march of triumph.

By A. J. MUSTE

NEW CASTLE, Pa. and YOUNGS-TOWN, Ohio .- From the debacle which overcame the militant movement of the steel workers last spring when Bill Green and Mike Tighe sabotaged the general strike of the Federal Trade Commission in the industry, the movement is and of the Bureau of Labor Statisslowly recovering.

The determination to build a un-textile code: NRA's first and model ion is not dead among the steel code. These two reports, taken toworkers, though they are somewhat lost in the maze of Labor Board elections, injunctions by the steel istics study on wages. In August companies against the union and by 1933, when the code took effect, the union against the companies and what have you. A crisis breaking into a strike may develop in one of these mills where an election is denied.

W.P. Has Many Contacts

The militant leaders hope nothing too serious will break before they get their forces organized better than they were last year. Comrade Cannon and I were called into conference by some of them. We find the Party has many contacts in steel,

Comrades McKinney, Cooper Sullivan and Berman from Pittsburgh popped into the New Castle meeting. They are hoping to tie in the unemployed movement here with the national movement.

The Party branches in New Castle and Youngstown have a good start and are thoroughly in earnest. The meetings for Comrade Cannon and me brought out most of the active spirits in the locality and made converts to the W.P. After the mass meetings, the branches kept the national officers up until four in the morning to discuss branch problems!

CLEVELAND, Ohio .-- On the way up here we visited an old steel worker's home. He still goes to work when there is work. "We are lucky if we make 10 dollars a week now, when we used to make that in a day."

Prosecution "Bargains" Rejected

The prosecution has fried to induce defendants to turn state's evidence in return for dismissal of their particular cases. Donald Bingham, tubercular union member who has spent six months in the county jail, turned down such an offer.

The prosecution is especially anxious to get Norman Mini out of the case. The fact that this former West Pointer, sole native Sacramento defendant, stands solidly with the other defendants spoils the district attorney's argument that the prisoners are aliens trying to foist "foreignisms" on "the great American nation". Mini, too, has flatly rejected the prosecution's overtures.

The joint defense committee's agreement limited representation to political and defense organizations

To Maintain this Great Work We Must Have Funds--Now!

HE Workers Party is expanding at a rapid pace, so rapid as to completely outdistance our meagre funds.

We have our principles, we have our men, workers are crying to be organized, the field is vast, the opportunities are here,

At the present moment we have contacts in the steel industry who are working in the progressive movement. The steel industry is one of the critical battlegrounds in the coming struggles of the American workers, and the progressive movement will be the determining factor in this struggle,

The Workers Party must, it is our revolutionary duty to maintain our work in steel, BUT WE MUST HAVE FUNDS,

In Akron, the center of the rubber industry, where a strike is imminent, we have been extremely fortunate. The leaders of the local C.1. unit, who are active in the unions and in workers' education, have resigned from the C.P. and come over to the W.P. just this week. These comrades form a nucleus from which we may penetrate thou-

sands upon thousands of workers. We are sending organizers into the field immediately.

But in order that the comrades may carry on this vital work, WE MUST HAVE FUNDS.

In Detroit, where tens of thousands of automobile workers are in a constant ferment, we have already established several party organizers. They are carrying the tradition of Toledo right into the heart of the automobile ndustry.

To maintain this work, WE MUST HAVE FUNDS. Last week we mentioned the expense of a new press to take care of the increased circulation of our publications. This week the need becomes even more imperative, so imperative that we are already negotiating for the press, although the money is not yet in sight.

We have undertaken the printing of a national paper for the N.U.L. It is hardly necessary to emphasize the importance of this step; a national paper will unify and promote the unemployed movement to a tremendous political force. We are fortunate to be able to assist in this work, where many of our comrades are active-BUT WE MUST HAVE FUNDS.

To facilitate our activities we have moved to the new office. It is a great advantage to have our work centralized; to have a place where all our committees can meet. At last we have a little space; the Political Committee no longer has to convene on the editor's desk. The International Workers School, an invaluable instrument in the class war, at last has space of its own, where the class may meet in some semblance of order.

At risk of becoming monotonous, we repeat, WE MUS' HAVE FUNDS. Comrades and friends, we must seize o the magnificent opportunities of the moment, and we mu have money to do so!

Subscribe to the Party Foundation Fund now. Su scribe yourself, and press every friend and sympathizer subscribe to the best of his ability.

Pay your pledges now, and pledge again. Press friend and sympathizers to pledge.

Collect all contributions, all pledges, immediately, an forward them to the national office, IMMEDIATELY. Comfades, friends, sympathizers: We are faced with great opportunity and a great responsibility, We cannot fail!

TWO YOUNG MEN START IN THE UNIONS SUBWAY UNION ROLLING

(By an IRT Subway Worker) What has happened to the workers on the subways? Last week I told of a new spirit among the men. They are organizing a new union, a genuine union, in opposition to the company union! Two years ago they took a 10 percent wage cut. They took it lying down.

But then- (and this 'is the story):

After the cut the cost of living started to go up and the men began County that houses are meant for to get more and more "sore". Five people to live in, and that they were or six months went by and one day two ambitious and optimistic young men got some of their friends together, and started a union of their own, in opposition to the Company Brotherhood.

> It was so easy to get the first few dozen members that they thought that in a few days they would have the whole road organized, "just like that". It was not as easy as that; but they stuck to their task, and by the time the Pension fake came up there were several hundred men in the union. and several hundred more knew all about it, and talked to others about it and a new feeling was begin-

ning to get into all the men.

The subway workers began to feel that maybe if they tried they could get somewhere. They were so "sore" about the pension graft. added to their other grievances, that they started flocking into the

new union by the hundreds. The Two Men

It was about this time that the two men who had started the union in practice. Indeed, in some inwere found out and promptly fired, stances Pearcy proved that he was but it was too late. The company "safer" to deal with than Lewis. was forced not only to stop firing and on the Semitic question he was men for joining the union, but it more reactionary than the gentlehas agreed to take these two men men who adorn the lofty perches of back. THE NATURE AND CAUSES OF MODERN WAR

CAPITALIST EXPANSION itself. **ENDS IN OPEN CONFLICT**

By JOHN WEST (Ed. Note: This is the first of a series of four articles by Comrade West on the problems of the revolutionary fight against war. The remaining three will be entitled: "The Struggle Against War", "The League Against War and Fascism", and "The United Front and War". Do not miss them!)

of the revolutionary movement is conditions of capitalist production the elimination of war. It has be- itself-by the possibility of using come almost commonplace to real- the surplus value realized from the ize that modern war threatens not sale of commodities to produce merely suffering and death to vast more surplus value.

The tendency to uncontrolled exmillions, but the actual destruction pansion exceeds the limits; the of human civilization, the thrusting apitalist created market can no of mankind back into barbarism. No one who, with the lessons of the longer "absorb" the products of the expanded capital equipment; exlast war in mind, has followed the recent developments in military pansion becomes over-expansion. The over-expansion is temporarily technique, can doubt this to be litcorrected" by the periodic crisis, erally true.

In the face of this prospect, it is the revolutionary movement alone that has a solution to offer. From the open war-glorification by Fascism to the futile gesturings of pacifism, all other forces in modern society are not merely powerless to prevent war but in fact aid in preparing war. The responsibility for the struggle against war rests wholly on the revolutionary movechronic necessity for the accumument. lation of capital, i.e. for the re

The first step in the struggle against war is a clear understanding of the nature and causes of war. A mere pious horror at the dreadfulness of war-which is shared by the great majority of men-is useless, and worse than useless.

AT THE BOTTOM OF WAR

The driving force of the capitalist mode of production is the necessity for the continual accumulation and expansion of capital. This necessity is inescapable. Capitalists must constantly attempt to expand capital, in order to maintain profits. But this attempt comes up against (indeed it is merely the reverse side of) the equally inescapable tendency under capitalism for the general rate of profits to fall. The fall in the rate of profits demands capital expansion, in order to retain an equal or greater total amount of profits; the expansion, however, in its turn involves an increased tendency of the rate of profits to fall, and, consequently, the still further need for capital expansion.

The necessity for the expansion of capital leads to the mighty development of the means of producgreat factories and mines and rail- the capitalists of each nation are roads, the enormous corporations, forced to seek outlets for capital the ever-growing monopolies. The investment (and likewise consumer expansion is, however, by its nature markets) beyond the national borunregulated and chaotic, for two ders. chief reasons, the first of which is If we glance even for a momen

a rational and inclusive plan. (2) It is developed with no relation to the needs of a consumer market.

From the point of view of capitalism, the "market" is only the means for transforming commodityvalues back into capital-values for further use in the accumulation of capital. The market is therefore necessarily limited not by the potential needs of consumers (which fineries in Cuba. Curtiss-Wright

An integral part of the great aim are nearly boundless), but by the

capitalizing of all present values

and for new capital investments;

(2) a periodic inability to find

markets through which commodi-

plants in Canada and even (Ford) ir. England and Germany. CAPITALISTS VIE **ON WORLD-WIDE SCALE**

But the capitalists of England, Fermany, France, Italy, and Japan are driven by the same scourge. Since the world is limited in exduring which capital (i.e. the value tent, since the areas available for of the means of production) is denew forms of capital expansion and stroyed through falling price levels exploitation are growingly restricbankruptcies and material deteriorted, conflict is not only likely but ation. The point is reached where inevitable. The grandiose battle of capital accumulation can once more the capitalists of the imperialist proceed "normally"; the tendencies powers is fought on a world-wide ary. > The general conclusion is inescapable: Modern war is neither accidental nor due to the evil of human nature nor decreed by God. War is of the very essence of imperialist-capitalism, as much a part of capitalism as wage labor. To speak of capitalism without war is like speaking of a human being without lungs. The fate of the one is inextricably bound to the fate of the other.

SITUATION IN CUBA AFTERMATH IN SPAIN

The terror regime continues in the island of Cuba.

As the conflict between the Menopponents (on both the left and bombings and street murders again daily occurrences, the government has placed the country under vir-

tual martial law. All constitutional guarantees

have been suspended throughout Cuba for a period of 30 days. This decision was accompanied by a Cabinet decree calling for the death penalty for all persons convicted of setting fire to cane fields or "sabotaging in any form or otherwise interrupting the sugar harvest".

Freely interpreted, this decree can

be made to apply to strikers on the sugar plantations. Toilers Under Imperialism

Imperialism and its puppets are

WORLD IN REVIEW

unable to solve the crisis that has held the island republic in its clutches, with ever-increasing privations for the masses, for nearly a decade. The great mass of toilers of city and plantation remember how they were able, during the days of revolutionary upsurge fol-

lowing the overthrow of Machado, to win increased living standards through militant struggle, and are now preparing to press forward once more in order to re-gain the positions that the Mendieta "counter-revolution'' has wrested from them

The period of the sugar harvest is always the period of most intensive struggles by the Cuban workng class, and in this case it coincides with the political crisis brought about by the partial breakdown of the ruling clique.

Mendieta Seeks Allies

Here's Record Under NRA to Date The beleaguered Mendieta regime is casting about on all sides for allies. Elements such as the 'Autenticos'' of Grau San Martin and the semi-Fascist ABC, who under more favorable circumstances would ally themselves with the puppet of imperialism, realizing that a greater future is offered calling for elections, the NSLRB have spurned every attempt to ne-Miami, Florida, has announced that his party "will not accent any formula tending to perpetuate the present regime in Cuba".

While the government casts about in search of a life-line, it is bringing pressure against the left forces on the political field. It is these the main danger for the Mendieta government.

A number of strikes have occurred recently, contributing considerably to the further weakening of the government. If the threatened general strike should materialize. however, it may well become, as in the case of Machado, the lever by which the whole regime can be dumped into the sea.

The Aftermath in Asturias

According to an official statement made public on Jan. 15 by the governor general of the province of Asturias, eleven thousand miners of the region have either been killed in the recent revolt or are otherwise unaccounted for. The government decreed some time ago, that all miners returning to work, proposals to the union, the NSLRB in order to be permitted to do so, would first be required to turn

cal) powers, and on January 2, over one rifle to the authorities. A few days ago the Miner's Union of t has handed down-calling for Asturias was declared illegal. It appears that the valient miners of Donald plants of the Carnegie Asturias who bore the brunt of the armed struggle, are also destined to bear the brunt of the present

drawn. Roosevelt, Green and Tighe surances, that if the strike must now stand on their record called off the workers would have while the steel workers weigh their elections, majority rule, recognition, collective agreements: all

they were asking for. Set Up Steel Board

8. On the same day Congress passed Public Resolution No. 44 (approved by the President a few

tional Labor Board induced the days later), authorizing the Presi-Amalgamated to call off the Weir- dent to set up boards empowered ton strike. E. T. Weir signed an to call for employee elections to agreement providing for an elec- determine collective bargaining tion at which the workers would representation. Section 2 reads: "Any board so established is hereby empowered, when it shall

appear in the public interest, to order and conduct an election by a secret ballot of any employees of any employer, to determine by what person or persons or organization they desire to be represented in order to assure the right of employees to organize and to sclect their representatives for the purpose of collective bargaining as defined in Section 7a." 9. On June 28, 1934, the Presi- initiating legal proceedings. dent, relying on Public Resolution No. 44, did in fact create the National Steel Labor Relations Board, Section 3 of the Executive Order

reads as follows:

"Whenever, after its services are invoked by employers or employees, the Board upon investigation, shall find that an election is necessary to determine by what person, persons or organizations employees desire to be represented, the Board is authorized to order and conduct an election by a secret ballot. . . . After each such election the Board shall certify the results to all concerned, and the person, persons or organization certified as the choice of the majority of those voting shall be accepted as the representative or representatives of said employees for the purpose of collective bargaining, without thereby denying to any individual employee or group of employees the right to present grievances, to confer with their employers, or otherwise to associate themselves and act for mutual aid or protection." We may say then that the creation of the NSLRB signified a truce: the workers agreed not to strike; the government agreed to call for elections, majority rule governing.

10. From the beginning of July 1934 to late in December---a period six months-the Amalgamated

Vol. 1 SATURDAY, JANUARY 26, 1935 No. 7

In California

E IGHTEEN workers are on trial in Sacramento, California, facing a hostile jury and possible sentences of long terms in prison. They are charged with criminal syndicalism. But no smoke screen of any kind can hide the fact that these workers are prosecuted because they were the active organizers of the agricultural workers of the Sacramento and San Joaquin valleys. It is the most elementary working class right which is at stake in this trial: the right to organize into trade unions.

To stir up passions and hatred against the defendants the prosecution has raised the "red" issue and has challenged the right to legal existence of the Communist Party.

A special red-baiting Deputy Attorney Generalalthough defeated in the last election-heads the prosecution, amply supplied with funds by the 'Associated Farmers" and the Industrial Association. Religious and racial prejudices are played upon to secure a conviction. The Hearst press is flooding California with anti-red and anti-labor propaganda. And in this atmosphere of fierce reactionary agitation the Sacramento City Manager has publicly taken upon himself the arming of 600 "citizens" to repell an alleged invasion of the city.

The American Legion, the Elks, the Lions, Rotarians, Kiwanis, priests, rabbis, pastors, Boy Scout leaders, real estate brokers, brothel keepers and legislators-one and all are yelling for the incarceration in San Quentin of the eighteen defendants.

In face of this gigantic lynch party one duty remained supreme for those engaged in the active support of the defense: solidarity and unity of all defendants before the capitalist court despite differences of political views. Only utter disregard for working class interests could permit any other course.

For these reasons we accepted the building of a united front in the Sacramento defense as our special task and we have not swerved one inch from the pursuance of this aim. One of the defendants no longer adheres to the Communist Party. He shares the views of the Workers Party; but the capitalist court is no place for the discussion of internal working class differences.

We knew that the accomplishment of a united front in this defense would be no easy task. The perfidious attitude of the Communist Party had made that appear well nigh impossible. When members in their own ranks demanded a united front in this case they were denounced as stool pigeons. All the prejudices, artificially fostered, all the obstacles created by their false policies had to be battered down one by one to make a genuine united front possible in which the participants accept its obligations and carry them out honestly.

At the present moment this united front has been accomplished and a defense committee set up including the Communist Party, the Workers Party, the Socialist Party, the International Labor Defense, the Non Partisan Labor Defense, the Civil Liberties Union and other organizations mutually agreed upon by all concerned. The organizations involved and the defendants are pledged not to raise the internal controversial issues before the capitalist court and the attorneys for the I.L.D. and the N.P.L.D. cooperate in the courtroom. Will this united front last unt'l the case is through? This we cannot guarantee since it involves more than our party. But we can say that only light-minded charlatans would consciously take any steps or carry out any actions designed to endanger or break the united front defense. Our position is clear. We fought for the united front from the day we entered the case. We are pledged and we carry it out honestly not only for the sake of the one defendant who shares our views, not only for the sake of the other seventeen defendants, but for the sake of the working class-the real defendant at Sacramento.

the Communist Party is the fact that although it has been the policy of that organization for the past seven years to oppose the slogan of a labor party in this country, its leadership never even bothered to inform the membership that a change had been made in the policy.

Up to yesterday, the C.P. bureaucracy looked upon anybody who advocated the formation of a labor party as a deliberate agent of capitalism, a social Union paper. demagogue and a social fascist. The right wing of

the Socialist Party was the special object of C. P. ridicule and attack precisely because it defended the idea of a labor party. What, then, is the meaning of this abrupt, bewildering and bureaucratic turn-about-face which has

been effected in the dark of the moon? On the lips of Waldman, Panken, Solomon the deman that a labor party be formed, or that the S. P. should initiate or help to create one, signified an acknowledgement that the S. P. had failed even as a party of reformism.

The slogan is a confession of bankruptcy. On the lips of Browder and his trenchmen, the appeal for a labor party in this country has essen-

tially the same significance. In his "historic" speech in Washington, Browder as much as confirmed this. in effect, he declared: I think the C. P. is the only party that is good for

the working class; but the working class doesn't think so. It does not yet want a revolutionary party. Well, since this is the case, we, the Communist party is perfectly willing to create a non-revolutionary

party. The kind that you want. After a while, you will learn that this party is not really the kind you need, and just as we created it for you, we will smash it for you so that you can finally follow the leadership of the only, genuine, real, etc., etc., party. What other sense can be made of this political abracadebra?

We do not believe it to be the job of revolutionists, who have had the opportunity to thoroughly absorb the lessons of what labor and reformist parties have led to in Europe, to creatt a reformist labor party in the United States.

We shall return to the question of the labor party in greater detail in forthcoming issues of the New Militant.

\mathbf{W}

Tom Mooney's Freedom

HEN the United States Supreme Court entertained a writ of habeas corpus for Tom Mooney in November 1934 we said the action was a post election sop to the California working class. At that time the court ordered the state of California to show

cause why the writ should not be granted. Leaving aside the sheer irony of entertaining a writ of habeas corpus eighteen years after incarceration, we remark that our analysis was correct. The court has refused the writ.

The Supreme Court has the colossal gall to inform Mooney that he has not made sufficient efforts to obtain his freedom in the California courts.--After eighteen years of appeals and reappeals, after four governors have refused pardon, after the California Supreme Court has declined to review the case! The Court said that "Mooney had never asked the California court for the writ on the grounds which he now submits", and refused to deny that California would grant him his proper legal rights.

After eighteen years! Ironically, Mooney is sent back to California law at the very moment when it is in the act of railroading eighteen workers in Sacramento-for what? For the crime of organizing agricultural workers!

The Supreme Court is a court of aristocrats and millionaires. Mooney's freedom-the freedom of class war prisoners-is up to labor.

The editors don't like the title of this column, so they got together with the business manager and I am asked to announce that a year's subcsription to the New Militant will be given free to the reader suggisting the best title. The editors to decide. Titles must be in by February 15.

The Mooney Case

Again the "courts of justice". this time the highest in the land. played shuttle-cock with the life and liberty of Tom Mooney. This time the publicity and protests of the radical labor movement was so strong that the nine fossilized tools of Wall Street had to administer a gentle slap to California "justice", while on a "technicality" they condemned an innocent man to a continued living death. They passed the case back to California, where that other "stalwart representative of American democracy", Governor Merriam, says he is too busy to consider it now.

Where do our "labor leaders" all probability the worst possible stand? That smug Baptist faker, Bill Green, remains as silent on Mooney as he was vocal when helping to break the Frisco general strike.

> * * * "All the News That's Fit to Print"

That's the motto carried on the masthead of the New York Times. and they print a boxed in front page display to the story of the Judge in the Hauptmann case, giving a cough drop to the defense lawyer, and the Shenandoah mine explosion is tucked away on page 9.

meeting. **A Hot Situation**

big a situation as Detroit. So there's no unemployment in

The C. P. and the Labor Party

A FTER having been the almost exclusive property of the right wing in the Socialist Party for years, the slogan of a labor party has just been taken over bag and baggage by the leadership of the Communist Party.

The leader of the Communist Party, straight from Moscow, rushed down the gangplank of the boat which brought him home, grabbed the first train to Washington, and in the presence of the assembled delegates of the "unemployment insurance conference", set forth the new revelation.

Thoroughly characteristic of the present regime in

workers of the United States today. The employers are pushing the attack on unionism. Besides, I can hear the editor cuss-Section 7a of the NRA, little as it has done actually to secure to the workers the right to organize, is to Better have mercy on us. As I said, be emasculated or repealed altogether if the bosses have their way.

Mindful of the growing sense of solidarity displayed by the workers in Toledo. San Francisco. Minneapolis and other strike areas in 1934, the National Association of Manufacturers now proposes federal legislation to prohibit general and sympathetic strikes. If the machinists, for example, go on strike over a question of wages, no other workers

even in the same shop may stop work if the N.A.M. is to be suited! The only answer to these proposals to hog-tie and enslave the workers is for them to pick up where they left off last fall-organize in rubber, steel, auto-

mobiles, and fight out the issue of union recognition ization of a proper legal defense, on the picket lines. Production is for the moment on the rise in these

industries. The bosses would like to avoid trouble. The American Federation of Labor leaders must

not be permitted in 1935 to prevent or sabotage strikes as they did in 1934. It is because these bureaucrats did all in their power to thwart the militancy of the masses that the bosses have dared to take the offensive again.

Let the workers of Akron, of Weirton, of Detroit, and a score of other centers take the offensive again! Union recognition will not be won in Congress, or in a Labor Board hearing, or in the Supreme Court, but in militant strike struggles.

The Workers Party of the United States pledges its utmost support to these struggles.

That workers are chronically thrown out of their jobs, by technological change, by the business cycle, by seasonal influences-all this is disregarded. Similarly, the New Deal social welfare lads forget that the American worker hardly earns enough to support himself, let alone to save for his old age, and that as he grows older, his earning power declines.

The annuities are to begin at 65. But the worker under modern industrialism becomes aged economically long before he is biologically old.

and bona fide trade unions. However, at the first meeting among those claiming to represent organizations was one man who said he belonged to the American Veterans Association, "only that organization is controlled by agents of the Industrial Association and last night

they expelled me and 11 others, but I represent them officially".

Real United Front

The attempt to pack the united front was defeated. Voting together for a real united front policy were the Workers Party, the Socialist Party, the Non-Partisan Labor Defense and the Civil Liberties Union,

A slanderous article had appeared the previous week in the Western Worker, referring to "racketeering" and linking the Non-Partisan Labor Defense with it. Herbert Solow, N.P.L.D. representative, declared he regretted that the I.L.D. did not make some statement concerning this article. After much hesitation, the I.L.D. representative promised a printed retraction in next week's | paper.
