Vigilante Terror Aimed At Japanese-Americans

By Ralph Graham

LOS ANGELES. Feb. 20 - Vigilante violence, overtly encouraged by the capitalist press and slyly winked at by the local authorities, raised its head in California last week to endanger the lives of Japanese-Americans returning to the West Coast from inland concentration camps into which they were thrust shortly after America's entry into the war.

Persons hitherto unidentified Dput the torch to the home of Bob county, and burned it to the ground. None of the inmates sufeffects, together with the possessions of several other Japanese-American families which were stored in the house, were destroyed to a value of about \$7,000. Fire Chief Julius Jensen of Selma pronounced the blaze as "plainly of incendiary origin."

TWU-CIO Leader Resigns From Membership On WLB

Textile Workers' Actions Strike Heavy Blow At Prestige of Roosevelt's Anti-Labor Board

By Art Preis

The CIO Textile Workers Union of America, representing over 500,000 members in the country's lowest-wage industry, on February 20 withdrew the no-strike pledge for some 100,000 cotton-rayon workers. This is the first formal revocation of the no-strike policy by any CIO international union since Pearl Harbor. The action was taken by the TWU Executive Council at a meeting in New York City just prior to release of the War Labor Board's long-delayed decision in the textile wage case.

union's President, Emil case. This was a rejection of the Rieve, resigned from the WLB 'in protest against The board also halved the union's the usurpation of its functions and the plain fact imum, conceding only a 55 cents that the Board has now been reduced to little more than a rub- the lowest wages of any basic ber stamp." This is especially manufacturing industry in Amersignificant because Rieve was one of the union leaders who originally committed organized labor to the no-strike policy and helped establish the compulsory arbitration WLB.

TRADE UNION SWP Branches Obtain 1526 New Readers In First Day Of 'Militant' Sub Campaign

By Reba Aubrey, Campaign Director

The response of our comrades to the call for a National (Red Sunday) Mobilization was magnificent. In one day, The Militant was placed in 1,526 more workers' homes where they will read it regularly for six months.

For the first time in the history of The Militant, a campaign was launched with a National Red Sunday. Every branch of the Socialist Workers Party in the country mobilized February 25, the comrades going from door-to-door to secure new readers through our special introductory offer of six months for 25c.

These 1,526 new subscriptions to The Militant provide a flying start to our three-month Subscription Campaign for 10,000 new readers. We recall that in the previous campaign last year it took us five weeks, instead of one day, to sell 1,500 subs. This extraordinary total indicates not only the increased experience of the comrades as subgetters but also the growing acceptance by the workers of a paper which really tells them the truth and fights for their in-

FROM THE BRANCHES

Flint was dissatisfied with their assigned quota of 10, raised it to 50, and on Red Sunday secured 26 subs, 54 percent of the quota. Jeff Thorne wired: "Five comrades mobilized for three hours; sold 26 subs and exhausted samples of The Militant. Comrade Bayer led with 15 subs or a sale in every other house in one block. Send 50 more cards."

H. Newell of Allentown writes: "Our branch went to the steel town of Bethlehem on our first mobilization. The good coverage of steel in the paper was a great help in this locality where most workers are in steel. Five of us sold the 20 subs. Please rush 30 more

Jewish Question

NEW YORK, Feb. 25 - Irving Dale will speak on "The Way Out for the Jewish Masses," in a discussion dealing with the 8 P. M., March 4, at the New York School of Social Science, 116 University Place. All readers of The Militant and their friends are invited to attend.

The Yalta Conference was discussed at tonight's forum. Questions from the audience dealt mainly with the danger to the European revolution from the plans of the "Big Three" and the role of the Soviet Union.

Akron Workers Hear Talk On Situation In Europe

AKRON, Feb. 18 - The Akron® Militant Club initiated its Sunday afternoon forum series today with a talk by Joseph Andrews on the European situation. Reviewing the e devastation wrought by the Nazis on the European continent, the speaker demonstrated how the intolerable suffering of European humanity under Hitler has been perpetuated, even magnified under the Allied conquerors.

The Yalta Conference of the two major imperialist powers and their Stalinist abettors, declared the speaker, in reality met to consider such urgent questions as how to extinguish the flames of revolt in Europe. But the maneuvers and schemes of these firemen and their Fire Chief Roosevelt are of far less significance than the deeds and aspirations of the European proletariat as it marches with ever greater power and determination toward decisive conflicts with capitalism.

ist fighters who emerge from the prisons and concentration camps to lead the workers in battle will At San Francisco be revealed as the genuine hisbe revealed as the genuine historic personalities of our times. CRDC Meeting Beside them the so-called Big Three, defenders of a doomed social order, will pale into insig- Sixty-five workers attended a nificance.

At the conclusion of the forum three workers joined the Social- fense Committee on Feb. 18 to ist Workers Party and a fourth celebrate the release of the 12 applied for membership.

The second talk in this forum series will deal with "The History of American Trotskyism." It will be held Sunday, March 3 how the Smith "Gag" Act and at 3 P. M., room 405, Everett similar sedition laws of the past, Bldg., 39 E. Market St., Akron. are always used by the employers

"War Is Hell!"

Civil War General Sherman is reported to have said: "War is hell!" But that was in the days before cost-plus contracts. Congressman Woodruff, quoting figures supplied by the U. S. Comptroller General, disclosed that the costplus shipbuilding tycoon, Henry Kaiser, had realized a profit "after renegotiation" of \$27,274,487.24 on an original investment of \$100,000. These figures covered only two of the Kaiser shipyards.

Kaiser's "magnificent" contribution to the "war effort" said Woodvuff, "has not gone entirely unrewarded." This, as workers frozen to their jobs at frozen wages might say, is a masterpiece of understate-

lecisive conflicts with capitalism. In these conflicts the Trotsky-

Fighting Record Of Trotskyists Inside France

The following piece is reprinted from the Sep. 30, 1944 issue of La Verite, organ of the Internationalist Communist Party, French section of the 4th International. It forms part of an open letter sent to the President of the National Federation of the French Press in protest against the delay of this Stalinist-influenced bureau to authorize the open publication of La Verite. Our French comrades demand the same full legal publication rights accorded all papers which were illegally issued under Hitler's dictatorship. In their fight for freedom of the press the French Trotskyists proudly set forth their record of struggle under the Nazis which we print below.

THE FIRST ORGAN THAT RESISTED HITLER

We are asked whether La Verite was an organ of "resistance" for four years. The first number of La Verite was secretly mimeographed as early as August 1940. There was another clandestine organ, L'Humanite, (official organ of the French Communist Party) but all Parisians remember that it was then distributed in the streets with the tacit consent of the occupying forces and besides, officially applied for legal publication. L'Humanite appeared then without a single line against German occupation by virtue of the German-Russian agreement, which it warmly defended.

In contrast, La Verite, which had on its masthead "Neither Petain nor Hitler-For a Workers and Peasants Government' violently attacked Nazism, denounced the (Nazi) raiding of goods, appealed for regrouping against fascism on both sides of the demarcation line, etc. To our knowledge, La Verite was the first organ of resistance.

OUR STRUGGLE

For four years, in 19 mimeographed and 54 printed issues, La Verite campaigned against fascism and the occupying imperialism. Its campaigns were oriented as follows:

1. Struggle Against Fascism

To this struggle was devoted the first editorial of La Verite since then, there has not been a single issue of La Verite where it was abandoned. For the rest, let us recall that since the first months of the occupation, our youth comrades organized against the fascist gangs, assured the physical defense of the last free youth organization, the CLAJ (Youth Hostels). The Nazi authorities soon dissolved it and arrested its leaders.

2. Struggle Against Racism and Anti-Semitism Also since the first issue.

3. Struggle for the Peoples' Right of Self-Determination

This right being applied to all the peoples including the

4. Struggle Against Imperialist War

We struggled with all our strength against imperialist warwhich, as the Franc Tireur recalls, is the fruit of the whole of the capitalist regime-by appealing to the workers of all countries to unite, in order to overthrow the bourgeoisie. That is why our masthead reads: "Workers of all countries, unite." This is why our doctrine is that of the Socialist United States of the World, which alone can prevent the return of fascism and war, and this is also why we denounced the maneuvers of the occupying imperialism trying to make the working peoples pay for the im-

5. Struggle for Fraternization

We appealed to the German soldiers to turn their arms against their officers and to fraternize with the workers of Europe, at the | 9. Struggle in Support of the Maquis same time as we appealed to the workers of this country to address fraternally the workers dragooned by Hitler into his army, calling upon them to struggle together against fascism and capitalism. This propaganda is that for which L'Humanite reproaches us with most hatred, pretending that we want to "give our hand to the murderers."

On the contrary, La Verite repeats unceasingly that "we must execute the agents of the Gestapo, the SS, the reactionary officers. It is against them that we must give our hand to the German workers in uniform". Here, for instance, is one of our most recent posters, in German:

"German soldier! Start the struggle immediately against Hitler, the Nazis, the Gestapo. Start the struggle immediately against all capitalists! Disarm your officers, form your Sol diers' Councils! Don't throw your arms away! Give them to us! Struggle with us, your brothers, the French workers! Bring the revolution to Germany and establish the power of of fights for workers' demands we supported all the strike slogans the Workers' and Soldiers' Councils!"

For L'Humanite, the whole German army is indistinguishably a mass of murderers, although in that same newspaper numerous facts are reported which demonstrate the contrary. We even refer them to the Catholic newspapers like the Temoignage Chretien to make them understand that the German soldiers have been forcibly integrated into the Wehrmacht and are Hitler's victims like the workers of the occupied countries. Most of them hate Hitlerism, and the revolution would have started in Germany long ago if they had not been welded to their General Staffs by the wall of national hatred which encircled them, and if they had seen a way out of their situation.

This is why the Gestapo reacted violently against our fraternization efforts. Thus, in one single case, in October 1943, against our comrades who edited Der Arbeiter in Brittany, 65 of our comrades, of whom 30 were German soldiers, were arrested, deported and murdered. On that occasion four members of our leadership were caught and tortured.

But this repression did not prevent our work from continuing Up to August 1944, we edited several organs in German, namely Unser Wort and Arbeiter Und Soldat, the latter distributed in the barracks, from 5,000 to 10,000 copies.

6. Struggle for Food Supplies

From the very beginning La Verite called upon the working masses to constitute housewives committees, to demonstrate, to take into their hands the distribution of the food supplies, against the Hitlerites, the Vichyites, the monopolists and gangsters of the black market. This struggle of the city workers was conducted in close alliance with the peasant workers. This same campaign can be found in our most recent issues.

7. Struggle Against the Downfall of the Standard of Living and for the Workers' Demands

In our newspapers, we devoted a considerable section to the workers' struggles, promoting strikes and mass sabotage. We supported these campaigns of our central organ by hundreds of leaflets and plant newspapers. We participated in almost all the workers' movements and led a certain number of them.

8. Struggle Against Deportations

La Verite was the first newspaper that warned the workers about the deportations that were being plotted, and that called upon them to resist collectively, and if they were forcibly compelled to leave, to advise them on the organization of resistance against Hitler!"

Trotskyist European Underground Papers

Reproduced above are three of the publications issued by the Trotskyists in Europe under the Nazi heel. La Verite is the official organ of the Internationalist Communist Party, French section of the 4th International. The Arbeiter Und Soldat (Worker and Soldier) was published by the German section of the 4th International and distributed among the German occupying forces. The "Appeal to the Spanish Proletariat" was issued by the Spanish section of the 4th International in its struggle against the Franco dictatorship.

Reign of Terror Renewedin Greece Following 'Peace'

The Greek people are now undergoing the crushing aftermath of the "peace" terms imposed upon them Feb. 12 by the British conquerors and their Greek Quislings.

According to a Feb. 20 UP dispatch from Athens, Pericles been forced to resign

naming of General Flakhos Under-Secretary of Security, "means the introduction of a new Gestapo respondent M. W. Fodor. The ousting of Rhallis-which precipitated a crisis in the Greek cabinet — "indicates pressure by reactionaries, pseudo - democrats and camouflaged fascists... to use a stronger hand against the thods of the late dictator John

The same dispatch states that 'the jails are filled with prisoners from the civil war, despite the EAM-Government agreement that they would be released. Moreover arrests are still continuing. One Athens newspaper estimates that they average 1,500 a day. On the other hand, EAM spokesmen point out that many of the men of the Security Battalions that tortured and illtreated Greek patriots during the Nazi regime are not only at large, but many are in govern-

Churchill Armed Fascist Forces To Massacre The Greek Workers

A mutiny, concealed for months sistance. With the help of the Greek government-in-exile in Cairo, the Greek Mountain Brigade was formed under British supervision. "Only officers and soldiers with ed the occasion of the December strong royalist or reactionary convictions were admitted," says initiate their butchery of the Stowe. "All other officers, were Greek people. In his recent radio jailed or banned from the brigs broadcast as well as in his artiade." This brigade was sent to cles, Stowe gives a vivid descrip-

tionary action. EDES AID NAZIS

But the British needed much ven before entering Athens, they purchased General Zervas and his trict "where 10,000 people live Europe, as Hitler's armies. EDES troops, increasing this army, says Stowe, "from 5,000 to 10,000." (A later report places this army at 15,000). "For two eyes dark and glowing . . . Its army did the most damage but an years prior to June 1944," reports Stowe, "EDES collaborated with shells or bombs, many of them involves us in the futile argument the Germans and fought ELAS... Correspondents have seen captured German documents which prove EDES was on excellent terms with the Nazis . . . until its men got more pay and inducements from the Allies."

In addition, the British rounded up the "fanatically royalist X-ites . . . reported to have received several thousand tommyguns smuggled into Athens by the British a month before the Germans got out. The well-armed X-ites fought ELAS forces in Athens on Dec. 3 and 4."

When the British finally entered Athens on October 15, they im- killed . . We expected the British and in money; take control over mediately took into their service to come and feed us. Instead they the entire German economy for the whole Athens police force. This was the very same police that "had done the Nazis' bidding for three and a half years." They also restored the Security Battalions that had served as a Greek Gestapo for the Nazis during the occupation. The Security Battalions says Stowe, had been formed under one of the Greek Lavals - Puppet Premier John Rhallis, who was hand-picked by the Nazis." The men had been armed by the Nazis and even wore German uniforms.

militants who paid with their lives or their liberty for their attach-These battalions "had arrested thousands of Greek patriots and To speak only of a few of those shot, there is Meichler, exdelivered them to Nazi torture manager of Unser Wort who was among the first shot in Paris. There are Marc Bourhis and Guegen, the former secretary of our 204 were executed in a single day Concarneau district, the latter former Communist mayor of Conby the Nazis." Almost every carneau who rallied to our ideas, both shot in October 1941 at working family in Greece had Chateaubriant at the same time as Timbaud. There are young suffered the loss of their men workers like Lebacher of Drancy, teachers like Thiolon of the XIth through these traitors. So intense (arrodissement, Paris), regional leaders like Cruau of Nantes, old was the hatred of the masses that. militants like Wintley, leader of our German group in Paris, when the Nazis had been driven caught and murdered by the Gestapo in particularly atrocious out, they demanded the execution of the members of the Security circumstances, or young workers like Van Hulst of Suresnes, killed Battalions. But, says Stowe, upon Churchill's orders Scobie saw to t that "they were merely kept

THE REPARATIONS ISSUE **AND A SOCIALIST EUROPE**

By M. Morrison

For the workers of Europe, including England and the Soviet Union, the problem of reparations, discussed by Stalin, Roosevelt, and Churchill at the Crimea conference becomes one of the most important problems that will confront them in the post-war period. Because that problem is intimately connected with the all-important questions: how should the working mass-Rhallis, Minister of Interior, has es go about repairing the vast damage wrought by the various armies; for whose benefit shall they repair it; how should they This change, together with the guarantee that once repaired, another and more destructive war will not once again bring ruin and chaos to Europe?

There were undoubtedly dif-

ferences of opinion between Stalin on the one hand and Churchill and Roosevelt on the other, ious to enslave the skilled German workers for the purpose of restoring the devastated areas of the Soviet Union.

HOW TO REBUILD Leaving aside the differences

with reference to the method of reparations, it is clear that Stalin, Churchill and Roosevelt agreed on the principle of reparations. were ready, Churchill issued his Here a warning to some advanced workers is necessary. So terrible is the ruin caused by Hitler's armies that it is fairly easy for Stalin and the imperialist representatives to convince the millions of people who suffered at the hands of Hitler that justice demands reparations by the Germans. Some radical workers, un-Rimini Italy where for one month tion of the onslaught against the derstanding correctly that the they trained for counter-revolu- working class in the 33 days of Soviet bureaucrats and the imperialists will utilize the apparent justice of the claim to reparations | No one in his right senses will Only the workers and their in order to fool the masses, may contend that the Soviet bureaufamilies were slaughtered; only insist on presenting the obvious cracy and the imperialists of more than one Monarchist brig- their homes were destroyed. "In argument that the armies of Great Britain and the United ade to carry out their schemes Athens' bitter street fighting" up Stalin, Churchill and Roosevelt States will put the German workagainst the Greek masses. Thus, to 5,000 of them were killed or caused as much, if not more ers in power for the purpose of damage, at least

The question must not argued on that plane. Not only where I found ruins. . . heart- mental position that the imperialworkers, says Stowe, "fought 49 can and must shift the argument and the Quisling Greek police ... best method for the workers to destruction by another war.

On the theory that Germany alone is responsible for the war, Stalin, the imperialists and their representatives and followers shooting. They came back three argue: make Germany pay for many years and generations if necessary; close down and destroy all her war industries (which means in practice her basic industries). These in essence are the proposals made by Sir Walter Citrine, general secretary of the British Trades Union Congress, at the World Trade Union Conference recently held in London. His views are of course the views of the British Government, and in general they represent the views of all the governments on the side of the Allies. Against these views the ad-

vanced workers of Europe. States of Europe.

France, must conduct the most possible. The fate of civilized Europe depends largely on German productive forces. Any plan which starts from the proposition that German economy must be weakened is, in reality, directed against the welfare of the European masses.

SOCIALIST GERMANY

It is obvious however that to on the question of compelling leave the German productive ma-German workers to work under chine in the hands of the German the whip of Stalin and the Allied capitalists is to lay the basis imperialists for the restoration for a war twenty or so years the devastated areas. The from now. The conclusion is inapitalist countries are faced with escapable. To permit German he problem of what to do with productive capacity to remain at their own workers and also with its high level and even to inserious opposition on the part of crease it so that the masses of the organized workers to the all of Europe can benefit, and at use of slave labor, a system which the same time avoid another war, would inevitably reduce the it is necessary to establish a standard of living of the native | Socialist Germany. It is necessary workers. Stalin is not confronted for the German workers to take with these difficulties and is anx- power and nationalize German industry.

> The German workers can and must utilize the enormous power of German industry to rebuild the factories that have been destroyed, the homes that have been bombed out of existence-not only in Germany but in all of Europe. The German workers will be more than glad to help in the rebuilding of Europe provided they know that they are doing so not for foreign or native exploiters but for themselves and their fellowworkers of Europe.

> Once the European workers realize that the problem of rebuilding devastated Europe and guaranteeing it against further devastation can be solved only with the help of a Socialist Germany, their task becomes clear. workers are certain to take power if the workers of Europe will give them the lead and assure them of their support.

AID GERMAN WORKERS

Under the condition of complete occupation of Germany by the Allied armies the burden of removing those armies from Germany and permitting the German workers to take power will rest upon the European masses outside of Germany and also upon the American masses.

Essentially the problem of enlisting the aid of German industry in the rebuilding of devastated Europe can be solved only if the workers of Europe, especially France and England, take power into their own hands and call upon the German workers to do the same thing.

To leave Europe in the hands of the capitalists and of Stalin means destroying German industrial power and with that the possibility of reconstructing Europe for the benefit of the European masses. Europe can be rebuilt with the help of German industry but that industry must be in the hands of the German workers. To enable the German workers to take and hold that industry it is necessary for the European masses to take power into their own hands. The question of reparations, when properly analyzed, means that its solution lies in a Socialist United

The Allentown Plan enforces involuntary servitude... the WLB's original function as which is a direct violation of a decision-making body, acting in the interest of equal justice, is the Constitution of the United tion to any and all forms of States." re-established." Of course, the tended to have such a function. That was merely a fiction used to gain the worker's support for the board and their surrender of the strike weapon.

Neverthelss, the TWU decisions are further confirmation of the correctness of the policies consistently advocated by the Socialist Workers Party and The Militant, From the very first, the Trotskyists have warned of the disastrous consequences for labor in the no-strike policy and support of the WLB. Today workers everywhere are learning the truth of the Trotskyist contentions through their own bitter experiences. They must now demand that the lessons of these experiences be translated into decisive action. The union leaders must be compelled to resign immediately from the anti-labor WLB. The no-strike policy must be scrapped. A united militant union offensive must be launched to smash the wage-freezing Little Steel Formula.

SHOP TALKS ON SOCIALISM

= By V. Grey :

Scissorbill Sam (the bosses' man) keeps telling us how unfair it would be to take away the factories from all the bosses and run them ourselves. A lot of fellows agree with him, too. They don't say it so loud as he does. But down inside, some of them think it would be kind of a dirty trick.

Why, us working people are in the great majority. And it wouldn't be very sporting for us to take advantage of our great vest pocket." He frankly pre- size and strength-to kick out this tiny group of tyrants, would it? dicted that withdrawal of the no- After all, there THEY are, smooth, cultured generous-born to strike pledge for a large section command-just like the actor who plays the female movie star's of the industry would lead to millionaire father in the pictures. And here WE are, the huge mass of people that only look at the movies, and work in the shops. The That the TWU top officials fifty or sixty million dumb clucks that have to work for a living. Born to be commanded. Why only an "agitator" would want to change a beautiful set-up like that!

No. It really doesn't seem fair to take things away from people who are weaker, fewer, and more useless than ourselves. But figure had been "deluged by request it this way. We're really not taking anything away from them for walk-outs in telegrams by the that they didn't take away from us in the first place.

When they sell a billion dollars worth of steel to the govern-The textile union's action is all ment, where did the steel come from? Why, you'll say, from the the more significant because it is strip mill, the bar mill, the rail mill, etc. And where did the plates, part of important developments bars and beams come from? From the ingots, you say. And the reflecting general rank and file ingots from the open hearth. And the "live iron" from the mixer and the blast furnace, and so on, back to the iron ore that was dug and scuttling the pro-corporation out of the Mesabi Range by workers just like ourselves. And in every one of these processes it was working PEOPLE who changed the product from one thing into another, until finally it became

But what about the machinery the diggers used, and the tatives meeting in Chicago expensive equipment every steel plant has? Fine-fine-That's just the point. That cost something, they tell you. Yes. But what it strike pledge if the WLB did not really cost was LABOR. The machinery took labor to make, the labor of the engineer, draughtsman, tool and die maker, etc. It is made of steel that the millworker, billet man, furnace man, dockworkers, railroad worker, ship worker and miner made, too-and with the issuance of a WLB or- so are the buildings and tracks and engines—and everything else made by whole generations of working people.

THEY SELL THE PRODUCT OF OUR LABOR

What they sell, when they sell a billion dollars worth of steel is the product of our labor. And that's where they get the money The CIO United Automobile to hire more laborers to build more plants. That's where they get Workers, largest and most dyn- the money to live, to live in palaces and swim in champagne. And amic union in the country, has all they return to the laborer is enough for him and his family to scrape along on, a jump ahead of the Finance Company.

We're not going to be unjust to the capitalist. We're going to give him a far better break than he ever gave us. When he works under a WORKERS' government he'll get the full product of his labor-which is a damn sight more than he gives us.

He won't surrender a part of his product every day of his life for the enrichment of a few, like us working people have to do aircraft workers, if not a major- now. The NEGRO STRUGGLE by CHARLES JACKSON

"Labor with a white skin cannot emancipate itself

Big Business Leader Speaks

The Negro people are reading and hearing plenty of comments these days as to what will happen to them in the "postwar" period. Many writers admit that, with the coming cutback of war production, the Negro worker (before the others) will be walking the street again just as he was during the last depression.

graces of the capitalist exploiters Mr. Mosher states that "discrifor whom they speak, these writers invariably fail to advocate any basic change in the economic system which would assure Negro | Negroism he asks: "How rapidly employment by assuring full em- can we overcome prejudices in-

current subject is used as a launching ramp for an outright measures which would force manassault on the Negro people themselves. Yet that is what has happened during the past few weeks in a series of articles by both white and Negro civic fakers, political chameleons, and big business scoundrels who have held

The series was entitled "When dance of a direct and truthful to accept second-class citizenship. answer to this cogent question BOSS-CLASS SCORN they have cast insults at the Negro workers and implied that these workers are the ones responsible for the discrimination in America today.

BIG BUSINESS POLICY

For example, Ira Mosher, President of the National Association of Manufacturers and thereby official spokesman for the most powerful organization of capitalist exploiters in the country, states that "The Negro himself is discriminating." He obviously is trying to vindicate the vicious against the Negro worker by this troublesome period." refusing to hire him or else to upgrade him in the majority of

plants throughout the country. Mosher even resorts to open lies in his attempt to cover up the reactionary policies of those for whom he speaks. It has been servation of the official governtry, brands the Negro as a secondwith color prejudice but we pick against race in order to keep the nation ever dreamed."

In order to keep in the good | But regardless of these facts, mination of any kind is an inherited tradition. . ." In an obvious attempt to whitewash antiloyment. herited and passed down from generation to generation?" Taking a crack in advance at any agement to employ and upgrade workers regardless of color, he make it so. . .

His only remedy is "education which would give the Negro first | Tule Lake concentration camp. Peace Comes. . . What?" In an class citizenship, then he must attempt to cover up their avoi- mean education to train the Negro

His boss-class scorn for the Negro worker is clearly brought out by his offer to help the Negro achieve "opportunity" through a program of "self-improvement." To Mr. Mosher the only way for the Negro to "improve" himself would probably be to become a crawling, begging Uncle Tom.

Although he repents the bed-time story that "55,000,000 postwar jobs are attainable," his true fear of the impossibility of this happening under the capitalist system is revealed by his hope policy of Big Business which, as that the workers will "practice we all know, openly discriminates restraint and tolerance during

> This is a perfect example then of the attitude of Big Business toward the Negro people. It feeds us the lie that racial prejudice is inherited in order to cover up the fact that it is purposely fostered and taught under the capitalist anyone knows that he is the

Vigilante Gangs Organize Campaign Of Terrorism Against Japanese-American Citizens In California

'shoot on sight" any Japanese-Americans they might encounter on the streets of this city.

Knowing the identity of the people harboring these murderous designs, did this law enforcement officer have them arrested and brought to trial for threatening the lives of peaceful citizens? By no means! Instead, the district attorney made his knowledge the basis for an appeal to higher authorities to continue depriving the Japanese-Americans of their civil rights by permanently restraining them from returning to their West Coast

The district attorney's attitude, combined with the lynch propaganda of the capitalist press, bore its hateful fruit. On Feb. 17, Mrs. flatly states: "Legislation will not Joseph J. Holzman, who lives at 1829 Camino Palermo in Los Angeles, informed the police she had -on both sides of the question." twice been warned by anonymous What kind of education does he phone calls to discharge two Japforth on the pages of the Chicago mean? What are the economic conand above all, the greatest pro-

A further inkling of the savage ductive force in Europe, namely: devastation and hunger for the peoples of Europe. Germany's dom is their doom.

The bulk of Europe's heavy industry is concentrated in Germany whose steel industry, machine tool and electrical plants, locomotive shops and shipbuilding yards are the largest on the continent. N. Y. Times acknowledges that out of Germany comes 60 percent of Europe's coal, 50 The same official then goes on percent of its pig iron and steel, reactionary business interests and to explain: "The German diet may and "even larger proportions of be allowed to fall below a level aluminum, electrical machinery of 1,350 calories a person daily and machine tools." How can European industry possibly revive

This chief organ of U. S. imperialism further acknowledges that the plans of the "Big Three' necessarily mean "an economic imbalance in Europe." That is to say, every blow to German industry is at the same time a blow to the economic life of Europe as a whole. What the N. Y. Times omits to say is that the permanent "economic imbalance of Europe" is one of the principal planks in Wall Street's program of world domination. To rule the world, Wall Street and all its agencies must keep Europe from ever rising again as a powerful rival. So long as Germany remains crushed, Europe is rendered im-

As Business Week states tion along the road of Socialism, editorially in its Feb. 17 issue: the victory-flushed Anglo-Ameri-"Germany's agriculture has al- can imperialists in alliance with ways been high cost, able to exist the Kremlin must aim their most only by favor of very high savage blows at the German protective tariffs. An agricul- workers. This is the real meaning tural Germany would find it of their program for Germany. almost impossible to trade its farm products for manufactures." Germany has had to import the bulk of its food supplies and of industrial raw materials.

Moreover, as Business Week likewise points out, the projected partition of Germany "not only would weaken Germany but further unbalance it-cutting off almost one-third of its 1937 feed output, and ever \$0 percent of its coal-steel as against only onesixth of its population. The remaining Germany of fabricating industries—machinery, chemicals, textiles-would then almost completely lack raw materials and

Finally, agriculture could never support Cormany's present population. Thus the destruction of Germany's industrial power entails the destruction of a large section of her population, above

German Revolution

A long-time propagandist for the Stalinist bureaucracy, Maurice Hindus, recently returned from Moscow, expounds in a series of articles in the N. Y. Herald-Tribune the war aims of the Kremlin clique. Discussing the possibility of a German working class revolution after the fall of Hitler, Hindus relates the following incident.

'What would you do,' I once asked a group of officers, 'if on reaching Berlin you ran into a mass demonstration with Red banners and Communist slogans?

"'We'd regard it as Nazi conspiracy,' said one of them, 'and treat it accordingly.' The others earnestly and mirthfully concurred in the opinion. I know of no Russians who will take exception to these words."

In the infamous Moscow frame up trials, Communist revolutionists were falsely accused of being "agents of Hitler." Now the Stalinists openly, even "mirthfully," avow their intention of applying this same technique to revolutionary German workers.

all, of her working class. The three gravediggers civilization, who once again met in secrecy, are conspiring first and foremost against the working class of Germany. This is their main enemy whom they want to atomize, to starve into submission, to drown in oceans of blood. For they know that once the mighty German proletariat rises, the insurgent masses of France, Italy, Greece, Belgium, Holland and the rest of tortured, agonized Europe will move to fuse ranks in the joint struggle for the Socialist United States of Europe.

Stalin knows that the Socialist The so-called Morgenthau plan uprising of the German prole--apparently adopted at Yalta- tariat will act instantly to revive by the usurpers and betrayers in the Kremlin.

Revoke the No-Strike Pledge!

Diary Of A Steel Worker

By Theodore Kovalesky

No matter where you work you know Mac. And maybe you like him; lots of people do, and then again, some of us don't think he's any good. But there's a Mac in every shop, and you know him.

I recall approaching Mac during the early days of the organizational drive. I said, "Look, we're not getting anywhere with this company union. The boys elected you a representative, but you can't do anything. You got the locker room cleaned up a little bit last month, but what did they say to you when you went into the office and told them the fellows didn't think they were getting enough money? And what did they say when you went in to tell them the fellows wanted a little more help on the furnaces when the going got tough? They scared hell out of you and sent you out again. They wanted to find out who the 'agitators' were that you were representing."

"Well," Mac said, "I know we didn't get all we wanted, but you never do. Hell, I'm no company man, but, well . . . when times get a little better, then we can get raise. You got to look at both sides."

"Times aren't any worse for the auto plants," I told him, "and those boys got a real union in, and they're getting some real Mac looked hard at me.

Yeah?

"Yeah," I repeated. "They got the CIO into their plants." "Sure," Mac sneered. "Those

poor suckers are keeping a bunch of union big shots riding around in limousines and drinking Scotch."

"Even if that were true, Mac, those boys have made some damn fine gains."

Mac pondered a moment. "I don't know. Anyway, that's a red organization, and I don't want nothing to do with reds."

That was pretty final, so I let him alone, and we got the SWOC drive underway without his help.

Then later on, just before I was laid off for union activity, I opproached him again. I said, "Mac, most of the boys around here have joined the

union. You've worked with them for years. We're all getting together to make the company quit kicking us around. How about it?" Mac was studying the top of Number Three Furnace. "How

about what?" he asked uncomfortably. "How about joining the union?" I said patiently.

Mac's eyes were travelling down the turret-like furnace, over he cast-house. He stared intently at the row of stoves, black cylinders, four of them reaching up a hundred feet into the air. He spoke slowly. "See me in a couple of days. I'll think it over." Then, with a hunted look in his eyes. . . "I don't want to lose my

The drive went on. Joey and I went out at night drinking beer with men from the plant, talking, arguing, getting tired and run down, making Mom scold us. The boys called us the "father and son team." Then I got the axe for my activities, but the kid was still in there punching. I was outside the gate passing out leaflets, still drinking beer, talking and arguing, getting union members.

Terry O'Day and Whitey Larson were outside the gate, too, working their heads off to get the union into the plant, and every day somebody else would come out and join us; and sometimes, although not very often, some guy would come out of the gate and stamp into the office swearing at us, because he'd worked in the plant for ten years and then been fired for union activity, and now he was disgusted with the very idea of a union. But that wasn't

Then came the big strike with pickets all over the streets, marching, singing, gathering on the corners to joke and conjecture about the progress of the strike, laughing, yelling, fighting scabs, fighting cops. . . But where was Mac? Mac was home. Mac was at his mother-in-law's. She was sick. Mac was sick. Mac was tired.

There was a burning sun bearing down on the picket line, and was sweating. I was tired. The men all around me were hot and tired. But Mac was home, or at his mother-in-law's or some place, and he was comfortable. He wasn't hungry, and he was getting plenty of rest.

Men had their heads broken on that picket line. Men died on that picket line, ten of them, shot in the back by the cops, shot as they fled, unarmed. But Mac was home safe, or he was safe at his mother-in-law's, or he was attending to some business. When the ambulances howled through the streets, they weren't after Mac. Mac stayed home and didn't come out until the strike was over and we were back at work.

But when the union was recognized and just about everybody belonged, Mac was there in the hall at every meeting, raising hell about the company. The man really could speak, and he took the floor at every opportunity. Soon he was a steward. Now he's vicepresident, a great Roosevelt man, really outstanding for his PAC

We'll probably kick him out next election.

10 Years Ago In The Militant

MARCH 2, 1935

FARGO, N. D .- The strike of Drivers Local 173 continued, as 16 of its leaders were sentenced to terms totaling 44 months in prison for strike activities. In a ringing challenge to the police and boss persecution, the union workers thronged the highways with picket signs reading "Don't Trade in a Scab Town!"

Meanwhile 60 other strikers were still in prison, awaiting trial on the same trumped-up charges of "riot." From the Twin Cities came promises of aid, as Minneapolis Drivers Local 574 met to protest the treatment of their fellow-workers, and Miles Dunne, 574 leader, prepared to speak before the Minneapolis Farmer-Labor Convention on behalf of the Fargo victims.

COLUMBUS, O. - Headquarters of the National Unemployed League here announced plans for a nation-wide "Caravan to Washington" to present a nine-point program before Congress. Basic demands of the League included the 30-hour week for labor, a \$10,000,000,000 public works program on the basis of the 30-hour, \$30 week, and unemployment insurance. The League also demanded proportionate cash relief for all unemployed workers and farmers, pending establishment of a satisfactory public works program.

To defend the USSR as the main fortress of the world proletariat, against all assaults of world imperialism and of internal counter-revolution, is the most important duty of e v e r y class - conscious worker.

— LEON TROTSKY

JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Government.
- 9. The defense of the Soviet Union against imperialist attack.

Vote Trotskyist!

Myra Tanner Weiss, Socialist Workers Party candidate for Mayor of Los Angeles, has from the outset of her campaign raised issues which are of vital concern to all wage earners regardless of creed or color. The gist of her message to the workers of Los Angeles may be set down in three

1.) The main strength of the masses lies in their vast numbers; but so long as they remain divided this numerical strength remains in reality only a source of weakness. Therefore:

2.) The main task is to organize themselves in order to express their common will and to further their own interests against the handful of the rich who prey upon them.

3.) The most effective form of organization is that of a political party based on a genuine working class program.

The tests of the genuineness of such a program are not difficult ones. Labor's strength is in its own ranks. Its present weakness comes from its dependence on the so-called "friends" in the camp of the class enemy. The Trotskyist candidate alone has told the Los Angeles workers this truth by underscoring that labor dare not sacrifice any of its dearly-won rights, no matter what fraudulent "cause" may be advanced by the self-styled "friends of labor." It is the great merit of the California Socialist Workers Party and its candidate that they have brought this sharply to the fore in the mayoralty campaign. For example, they point out the urgent necessity of fighting against the wage-freeze by revoking the "no-strike" pledge, whereby organized workers have been deprived of their most effective economic weapon against the Big Business onslaught on their living standards.

No less important is the struggle against race discrimination. Race hatred is the sharpest wedge which the rich seek to drive in the ranks of the toilers. California today is one of the hotbeds of vigilante activity. In an open letter to the CIO Council and the AFL Central Labor Council of Los Angeles, the Trotskyist candidate has sounded the alarm and called for labor to close its ranks in the struggle against vigilante terror. Labor cannot permit this threat to go unanswered.

The issues in the Los Angeles mayoralty campaign are by no means simply local ones. We urge all the Militant readers to follow this campaign attentively. We urge those who live in Los Angeles to aid the campaign and help rally the greatest possible support for it. Every vote for Myra Tanner Weiss is a vote for the poor against the rich; a vote for the independent party of labor; a vote against the wage-freeze and the high cost of living; a blow against race discrimination.

Capitalist Program

Adding insult to injury, the advocates of forced labor legislation vilify the workers in an attempt to justify their reactionary drive to shackle the labor movement. Roosevelt touched off the current labor conscription campaign with a blast that "Workers who quit war jobs were costing American lives." Picking up this cue, the rabid labor-hating head of the Army Service Forces, General Somervell, toured the country denouncing labor for "prolonging the war." Workers were quitting their war jobs, screeched Somervell.

The cost-plus patriots and their political deputies try to smear the labor movement for their own crimes. They aim to unload their own responsibility for the war and its consequences onto the shoulders of the workers. The "optimism" about an early end of the war with Germany emanated from the top circles of the General Staff. So optimistic were the brass hats that they instituted a wide-scale program of cutbacks and plant shutdowns last summer throwing tens of thousands out of work,

At that time Congress enacted and Roosevelt signed the George Demobilization Bill. This measure provides for the disposal of billions worth of government-owned plant and equipment to the profit-bloated corporations. For the workers, the bill provides "states rights" unemployment compensation as low as \$2 a week.

In time of war-forced labor and frozen wages. In time of "peace"-unemployment and a starvation dole. That is the capitalist program imposed upon the working people.

Menace Of Stalinism

The Yalta conference strikingly underscores the open counter-revolutionary role of the Kremlin. The main point on the agenda of this conference was the division of labor between the Allied imperialists and the Stalinist agency of imperialism in their plot to drown the European revolution in blood. The "Big Three" have been from the first in accord in their conspiracy against the unfolding Socialist revolution. Most of the disagreements among them have hitherto revolved around the price the Kremlin was to receive for its hangman's services. At Yalta Roosevelt and Churchill acceded to Stalin's terms involving the Curzon line, the Kremlin's share in the carving up and looting of Germany, the demarcation of Moscow's sphere of influence in Eastern and Southeastern Europe, and so on.

In the light of the Yalta conference special importance attaches to the action last November of the Eleventh Convention of the American Trotskyist movement which, after reviewing the Trotskyist position on the USSR as a degenerated workers state in the setting of the new situation, adopted a shift of emphasis in the slogans to be advanced in the next period relating to the defense of the USSR, Our defense of the Soviet Union, as Leon Trotsky pointed out time and again, never had anything in common with the policies or methods of Stalinism which we opposed and continue to oppose irreconcilably. What we defend is the integral part of the world revolution which began in Russia in 1917 and its essential conquests which still remain. We defend all this in our own way exclusively through the methods of the class struggle. Never, as the Kremlin does, by supporting some imperialist governments against others, but always by preserving inviolate the independence of the revolutionary class politics of the proletariat.

So long as the armies of German imperialism directly threatened the remaining conquests of the October Revolution it was necessary to advance as the central slogan the unconditional defense of the USSR and to subordinate the political struggle for the overthrow of Stalin's regime to the needs of Soviet military defense. But this can no longer apply now that the direct military threat to the Soviet Union has been removed. Now that the Red Armies stand not before Leningrad, Moscow or Stalingrad but on the outskirts of Berlin, our defense of the Soviet Union must place as the central slogan on the order of the day the defense of the European Revolution against all its enemies, especially its defense against the main internal enemy-Stalinism. The political struggle for the annihilation of Stalinism inside and outside the USSR now comes to the fore.

The fate of the Soviet Union, we have always maintained, will be decided on the map of the international class struggle and not on European military maps. Translated in terms of the altered objective situation, this means that the fate of the USSR now directly hinges on the outcome of unfolding European revolution. Every blow to the European proletariat, and particularly its most powerful sector-the working class of Germanyis a nail driven into the coffin so far as the remaining conquests of October are concerned. The task of the revolutionary vanguard throughout the world is to patiently explain this to the insurgent masses and to rally them in the struggle for the European revolution and against the main internal enemy of the Soviet Union and the world working class-Stalinism.

France

Coal miners in Northern France are refusing to work on Sunday until their demands are granted to improve their unbearable conditions. A dispatch to the N. Y. Times from Paris (Feb. 22nd) reported that more than 50% of the miners in the Anzin district refused to work on Sunday February 18th.

This limited strike is directed against insufficient food supplies, failure to issue rations of soap, and the reduction of Sunday pay by 75 per cent.

As in the United States and Great Britain, the miners in Northern France are being viciously smeared by the capitalist press and charged with responsibility for hardships resulting from lack of fuel. The trade union officials have joined in this chorus with an appeal to the starved-out miners to step up production.

The de Gaulle government has turned a deaf ear to the appeals of the miners. A delegation, headed by the Mayor of Lille, returned empty-handed after making a special trip to Paris to plead with the Minister of Supplies, Paul Ramadier, for an increase in food rations. The Minister, who doesn't have to risk his life digging coal, rejected the request.

Belgium

The new cabinet in Belgium headed by the Social-Democrat Van Acker has no brighter future than its predecessor the Pierlot government. Hardly had the new government taken office when its Minister of the Interior Adolphe van Glabbeke announced that from the United States.

"Confidential police reports," or three weeks ahead." To this movement.

he added that one million people would die in Belgium if an epidemic broke out today.

The Anglo-American authorities, far from assisting the Belgium people in their desperate plight, are feeding the war industries only and siphoning their output for the military front. "Britain and the United States," complains the Minister, "are behaving oddly. It is unfair and dangerous.'

There is nothing "odd" about the behavior of the Anglo-American imperialists. They are folowing a deliberate policy of reducing Belgium-as well as the rest of Europe-to the status of a colony. The danger, however, is obvious. It is the danger of Socialist revolution.

The government is powerless while the people are starving. "Belgium is not getting her share and what she is receiving is mixed up in two and a half governments trying to run the country. . (The Belgian Cabinet and the British Occupation Authority to which it is subordinated).

How do "they (the British and Americans) expect us to keep order?" the Minister whines. Uness relief is forthcoming in adequate quantities before the next crops are harvested, the government, he moaned, will collapse in the next five or six months.

Italy

More than 6,000 persons gathered in a mass meeting in taken.' Rome on Feb. 22nd to protest the vigilante raid on the offices of the Italian Socialist Party's newspaper Avanti. The hoodlum gang that wrecked the office con Belgium is headed straight for sisted of fascist naval officers chaos unless plenty of food, and a few sailors. Emboldened medical supplies and raw mate- by the timidity of the workers' rials are immediately forthcoming parties and their capitulation before the Anglo-American imperialists, the raid is only the the Minister says, "tell of fighting most open indication that the in bakery shops and when there reactionary forces are organizing is fighting in the bakeries it is a their forces and preparing sure sign of serious trouble two sweeping assault on the labor

That this raid should have been organized by naval officers points the finger directly to one of the festering sores of monarchist and militarist reaction-the Ministry of the Marine. Despite loud protests by Stalinist and Social-Democratic leaders, the purge has never touched the navy-along with most other government institutions-and the old gang that ruled under Mussolini is still at the helm.

The Christian Democrats, reactionary Catholic party, utilized the attack on the S. P. newspaper as a signal for a campaign of slander against the labor movement. Fanciful stories were published by them charging the defiling of church property, intimidation of priests and attacks on clerical supporters. The workers have been demand-

ng vigorous action against the repetition of such raids. Local Socialist committees in Rome adopted resolutions announcing that they are preparing defensive measures. But the party leaders are playing the same game that cleared the road for Mussolini to take power more than twenty years ago. The Socialist Party the Government"-under whose right wing the attack was evidently inspired and planned. The mass meeting decided that "this time the protest would be confined to . . . speeches but if this incident is repeated immediate counter-measures will be

The electrical atmosphere in the leet is indicated by the report to the Italian sailors at the Taranto base calling upon them to emulate the Russian sailors of Kronstadt in 1917 and the French Black Sea mutiny after World War I. The information, published by the Vatican-inspired paper Quotidiano, says that the sailors were urged to establish naval bases.

Private Working Capital Greatest in All History

War contracts and government bounty have raised he net working capital of America's corporations to the highest point in history. Last week the Securities and Exchange Commission issued its quarterly analysis for the three months of July, 1944 to Septemper. An increase of \$1,200,000,000 was recorded over the previous three months, bringing total working capital as of September 1944 to \$45,100,000,000 (that's

According to the SEC report, this accumulation of working capital is due primarily to "retained profits" -that is profits siphoned into "capital reserve" funds in order to avoid payment of corporation income and excess profits taxes. These are profits which the corporations have concealed by pretending they are funds for further capital investments and expansion. Actually, they are juicy war profits melons which will be divided up after the war when the corporations hope to secure huge tax rate reductions.

The corporations have also increased accumulated 'post-war credits in refundable taxes" to \$2,000,000-000 as of September 30, 1944, \$200,000,000 more than the previous three months. Other billions in government refunds have been accumulated through provisions of the income and excess profits tax laws for carrying back of "losses" and unused profits credits, for faster amortization of "emergency facilities" and recomputation of base-period income in excess profits determination.

Most of this tremendous increment of working capital is in so-called "liquid assets"-cash funds in the banks or invested in government securities. But this is the dumbest country in the this has not prevented Big Business from clamoring for greatly reduced taxes under the pretext of accumulating sufficient "working capital" to "provide jobs" at the cessation of hostilities.

FHA Bars Negro Workers From Texas Housing Units

Roosevelt's National Housing Administration last week gave another typical demonstration of the kind of "democracy" for which the Negro people are being asked to fight and die.

That was the refusal of National Housing Administrator Blandford to permit Negro ordnance workers from occupying a 200-unit war housing project originally built for them in New Boston, Texas, but which on completion was turned over exclusively to white occupancy.

Representatives of the National Association for the Advancement of Colored People had protested had good results in some locali- ficulties of the time, a privileged a lengthy answer. Or that you this discriminatory action to Blandford, but he upheld ties, but the reactionary capital- few manage to live comfortably are trying to make up in words the ruling of the NHA Regional Director in Dallas ists through their press have built and happy, increasing their and space what you lack in a who had originally ordered the transfer of the housing project to white tenants.

> Even before the NAACP had the opportunity to appeal the local NHA official's decision, white families were hastily being moved into the housing units built for Negro families. Negro workers at the highpriority Lone Star and Red River ordnance plants in Texarkana and nearby New Boston must live far out in rural areas and travel as much as 70 miles to their jobs.

While the Roosevelt administration has been tionary newspapers that unions these same people who formerly let, which would supply a more demanding a forced labor law on the pretext of a manpower "shortage," millions of Negro workers are either denied jobs or prevented from taking jobs by intolerable housing conditions in war production

> The National Housing Administration is not content with upholding the principle of racial segregation by restricting Negro workers to jim-crow housing units. It further denies the Negroes even such units, built with taxes collected from both Negro and white workers, and turns them over on completion exclusively to white tenants.

"Millionaires Amendment" To Limit Taxes on Rich

Working with such quiet and secrecy that few people know of its existence, a movement of big business leaders and their political agents has already pushed through 18 state legislatures a resolution to Congress calling for a Constitutional amendment limiting federal income, gift and inheritance taxes to 25 per cent maximum. This "millionaires' amendment" is sponsored by wealthy publisher Frank Gannett's "Committee for Constitutional Govern-

Present federal wartime tax laws permit taxes as nigh as 94 per cent on the very top income brackets. Because of enormous war profits, and tax loopholes this still permits personal net annual incomes after taxes of as much as a million dollars and more.

The object of the proposed constitutional amendment is to prevent Congress from even having the right to tax the rich in accordance with their ability to pay. This would mean placing the full burden of war debt payment openly and directly on the masses of low-income earners.

So complete has been the conspiracy of silence eadership is going to "appeal to among the capitalist politicians and daily press about this movement that the resolution for calling a national constitutional convention to ratify the "milionaires' amendment" has passed 18 state legislatures without the knowledge of the general public. The Gannett plan calls for slicking the resolution through 14 more legislatures this year, making it mandatory for Congress to call a constitutional convention.

Some of the facts of this fantastic conspiracy came to light only last week, when the New York State Senate defeated the resolution by a 24-24 tie vote. that leaflets have been distributed Liberal newspaper columnists, startled that such a measure could get such support in the country's most populated state, investigated and discovered the headway the proposal had already made unknown to the people at large.

Under the proposed amendment, a man with a million dollars annual income could be taxed no more than \$250,000. To meet its expenses, the government would then be forced to tax even the smallest incomes "internal commissions" or cells at the top 25 per cent. The way would also be paved on board the ships and at the for heavy sales taxes to make up huge government
