Miners Display Fighting Spirit In Strike Vote

Demonstrating their traditional fighting spirit and determination to win their just demands, the nation's soft coal miners on March 29 cast a thunderous eight-to-one majority vote empowering the United Mine Workers leaders to call a strike if the mine operators fail to sign a contract acceptable to the union.

The miners who went on strike? nored the howls of the big business press, government agents and mine owners. They marched calmly to the NLRB voting in 90 mining areas throughout the country and rolled up 208,718 "yes" votes against 25,156 "noes" to put into effect their "no contract, no work" slogan if necessary.

.This decisive expression of the militant will of the miners, as the boss press has mournfully conceded, has tremendously strengthened the hand of the UMW bargaining committee which had previously received a flat rejection of the union's 18 demands from the operators. The mine owners are gorged with the juiciest profits they have ever squeez- had indicated its readiness to aced from the sweat and blood of cept it in order to avoid a strike. the men who face death daily in It became crystal clear, even to

Fight Censorship! - An Editorial -

A scheduled radio address by Myra Tanner Weiss, Socialst Workers Party candidate for mayor of Los Angeles, was subjected to vicious censorship by Station KHJ. Only in mutilated form was the speech finally delivered on March 26 over another station, KNX.

As we go to press, a telegram from Los Angeles informs us that another radio address by the Trotskyist mayoralty candidate—on behalf of Charlotta Bass, independent Negro candidate for city council—was censored by Station KFAC. The American Civil Liberties Union has responded by initiating a protest against these blows at freedom of speech.

'MILITANT' PUBLISHED TEXT

The full, uncensored text of Comrade Weiss' first censored speech was published in last week's Militant so that our readers' might note the portions of the address which the radio censors did not permit the workers to hear.

One sentence the reactionary censors didn't consider "fit" for the public's ears expressed opposition to "the Roosevelt-sponsored National Service Act and all other freedom-destroying legislation." Another arbitrary excision was a reference to the system of capitalist exploitation and wars as a "cancerous growth on

Particularly vicious was the deletion of a statement correctly linking the terrorist racial attacks on Japanese-Americans complains: "It is very difficult to in California with the campaign of the open-shoppers to mobil- CIO Council. ize assaults on the labor movement.

This case is a significant example of the constant censorship and suppression of facts favoring the workers exercised by the corporation-owned radio stations. As the March 17 Militant reported, a CIO survey has shown that five out of every six references to labor on the radio are hostile and lying. The conthe Mississippi legislature asked trolled radio, like the daily press, is used almost exclusively in Lieut. Van T. Barfoot, Medal Of the interests of the rich and privileged.

Miss., "Did you have much trouble A THREAT TO DEMOCRATIC RIGHTS

Such cases as the one cited are a threat to the democratic the Negroes. That is why we suprights of all labor and make a mockery of free speech. The labor movement is duty-bound to protest vigorously against every instance of such censorship and to support the Socialist Workers Party and the American Civil Liberties Union in the up on the train, I found the diner fight against these violations of free speech.

> At the same time, such cases underline the vital function of The Militant in printing the truths and facts which the capitalist press and radio seek to conceal. Our columns are open to the workers to present the true picture of conditions under capitalism which the owning class tries to falsify and bury.

Wall Street Plans Union-Busting Drive Under Cover Of Its 'Truce' With Labor

By C. Thomas

The signing of a "Peace Charter" by representatives of organized labor and industry is being widely acclaimed by the kept press, Wall Street bankers and industrialists, administration wage - freezers and forced labor advocates. For this "charter" contains a "code of principles" lifted out of the bible of Big Business. It affirms the "right" of capital to exploit labor and renounces labor's resistance to such exploitation.

Specifically, it proposes to extend into the "post-war" period the wartime policy of unconditional surrender to the employing class. Small wonder

LOS ANGELES SWP LOCAL BACKS NEGRO CANDIDATE

LOS ANGELES, March 29.-In the final, crucial week of the local municipal election campaign, the Los Angeles section of the U. S. Chamber of of the Socialist Workers Party and its candidate for Mayor, Commerce, Eric John-Myra Tanner Weiss, have announced their endorsement of the candidacy of Charlotta A. Bass, independent Negro candidate ston, in formulating the for councilwoman from the 7th District.

The following statement of 9 from Trotskyist Campaign Headquarters:

(Trotskyist), which is running Myra Tanner Weiss as its candidate for Mayor, has endorsed the candidacy of Charlotta A. Bass. The Trotskyists are backing her

The miners, who have voted eight to one in favor of strike in an NLRB poll, showed two years were unaffected by similar antilabor bleats from the Stalinists.

Telephone Strike Poll

Some 18,000 local and long distance telephone operators in New York City will take an NLRB strike vote on April 16, after filing notice on March 17 of intention to strike.

They are continuing to demand a \$5 raise over their present \$20 weekly minimum. The WLB rejected the recommendation of its own special panel endorsing the \$5 increase sought by the 12,000 members of the New York Telephone Co. Workers' Union and the 6,000 members of the Federation of Long Lines Operais to enforce the no-strike pledge. tors, New York local. The national WLB instead awarded a want since they can continue their \$3 raise, \$1 less than the muttibillion dollar telephone trust itself finally agreed to pay.

The WLB has been giving the exploited women telephone operators a runaround for over two years. These women workers are now in a thoroughly fighting mood. And they are strategically situated in the very hub of the country's communications system.

Sets Record For Subscription Campaign

By Reba Aubrey, Campaign Director

During the fifth week of the Militant Subscription Campaign we reached the peak in weekly sales. This week the branches of the Socialist Workers Party sold 1,800 new subscriptions, which raises our total to 7,437. This is 74 percent of our goal to obtain 10,000 new readers before the end of May. With eight weeks remaining, we feel assured not only of reaching but of far

FROM THE BRANCHES

K. Karl, Philadelphia: "Philadelphia Branch wishes to challenge Last week, the Cleveland CIO, Bayonne in the campaign. The few we are ahead at present is not long under Stalinist domination, a big factor. The two branches are similar in size, in obstacles and passed an "appeal" to the miners in quota. Comrade Alma is Philadelphia's Pace-Setter with 17

Phil Burns, Bayonne: "The Bayonne Branch needs very little provocation to prove its ability to be amongst the outstanding branches in the party. We, naturally, accept the challenge of the Philadelphia comrades. The Philadelphia Branch will find that their slight margin ahead of ours is merely a reflection of the fact that we are still in second gear. Our Pace-Setters are Phil Burns with 26 subs and Arlene Williams with 15 subs."

Frieda Kalb, Brooklyn Branch, New York Local: "Marion Winters, top scorer of the Brooklyn Branch, rolled up 43 subs in five hours of sub-getting. This is the highest one-day total secured by any single New York comrade. Marion is fourth among the national Pace-Setters and has been boosting her sub sales by going to a college campus on her lunch hour. She" usually obtains eight to ten subs each time."

K. Zellon, Milwaukee: "This Sunday we were out in the Italian neighborhood. We received an excellent response. In one instance we sold seven subs in a half block. A brewery worker, who has given up the Socialist Call in favor of The Militant, says The Militant is a worker's paper and that the Call 'goes too easy on the capitalists.' He has already sold four trial subs to fellowworkers and three copies of the pamphlet, 'American Workers Need a Labor Party."

Bill Plain, San Diego: "We are sending airmail 24 trial subs. Our Pace-Setter is Wafter Cowan with 30 subs. We're rushing 182 percent and we just started. We intend to top the list."

Jerry Kirk, Detroit: "In thirty days of the campaign we hit our quota of 1,000 and are still in full swing to obtain 1,000 more. Of these 465 came directly from our trade union fractions, she explained it was a fighting We are proud of the job they have done. worker's paper, he immediately Our efforts to involve friends in the campaign have been more than successful. Over 200 cards have been sold by friends and we expect many more from

D. Hilson, Akron: "Please! Hurry with the sub cards. There are none at all in that four or five young workers the office. Comrade O'Kenney feels dis- at a nearby table were looking at criminated against. He has put in his us with curiosity. Spurred on by bid for 100 of the cards when they ar- the fact that another team had ciate having your paper, as it

John Russo, Reading: "Elmer Oakie is Reading's Pace-Setter with 46 subs. All subs were obtained in the shop he works in." B. Kingsley, Cleveland: "Enclosed are 25 introductory subs. .

P. S. Flash! Twelve new subs just came in. No sooner do I write a letter on the campaign than it's obsolete!" M. McGowan, Toledo: "Now that we have finished our quota

once, we are setting out to do it again. We have a scoreboard with numbers up to 500 and we feel that we will be able to make it." Libby Jones. Buffalo: "Our total this week is 104, making the complete total 359, nine over our quota. They will follow tonight. Will you send us 150 more sub cards. Our branch slogan is 'On to

200 percent!" B. Radlow, Chicago: "Of the 70 subs enclosed, 51 were obtained in two days by Paul Kujac. . . One of our plant fractions was given a quota of 100. They raised it to 200 at the beginning of the campaign. They have obtained 242 already and now they are going to make it 400."

FROM OUR SUBSCRIBERS

J. L. V. of Los Angeles sent us 21 trial subs with the following letter: "I've been a reader of The Militant for over three months. The subs that are listed here are fellow-workers who have taken a real interest in the socialist movement. I have been a reader of the Weekly People, Socialist Labor Party paper, for a number of years. Socialism therefore is not new to me, but The Militant certainly is different from anything I have ever read. My interest has been aroused to a new high in socialism. I am a brewery worker."

Do YOU give The Militant to your fellow-workers and ask them

there are for alert agents to sell socialism. subscriptions to The Militant.

A. Field, Minneapolis: "One of enclosed subs this evening on her The Militant and other radical way to the meeting. She sold them in between transfers on the streetcar."

K. Zellon, Milwaukee: "During the week one of our comrades was waiting for the bus. Glancing through The Militant she was approached by a worker evidently impressed by the headline who enquired about the paper. When purchased a trial sub."

Fred Nomen, East Side Branch, New York Local: "When we had finished our door-to-door work, a group of us demobilized in a cafeteria, where we compared results and experiences. I noticed obtained three more subs than my team, I approached the table and showed them The Militant. After a brief talk, three of them bought subs."

Howard Mason reports a method the Detroit Branch has found successful in selling subscriptions to The Militant.

"We hit on what we consider a fine idea. We found that almost every other house has a service flag in the window, so we pointed out the second point in our transitional demands listed on the back page of The Militant-Trade union wages for all workers drafted into the army. The reception to this was very good."

Another method the Detroit Branch has found successful in getting subscriptions is reported by Jerry Kirk.

The auto workers before entering the plant line up to buy tobacco, candy, etc. Two comrades distributed The Militant to these workers and then proceeded to sign up seven new subscribers. We intend to repeat this weekly.

Spanish Trotskyist Group Issues Ringing Call To Action Social-Democrats Back

Spain is once more becoming a focal point in European politics. In order to head off the grow ing revolt against Franco, the royalists are maneuvering to restore the monarchy while the Republicans. Stalinists and Socialists are aiming to revive the pro-capitalist Popular Front which paved the way for fascism in Spain.

The Spanish Trotskyists alone call upon the workers and peasants to organize their forces for the revolutionary overthrow of Franco as a step towards the conquest of power and the establishment of socialism. Herewith is a translation of the "Manifesto to the Spanish Proletariat" issued in September 1944 by the Internationalist Communist Group (Spanish Section of the 4th International) and published in the Jan. 15th, 1945 issue of its paper "Lucha de Clases" (The Class Struggle).

Under the weight of the contradictions inherent in the bourgeois regime; under the growing pressure of the revolutionary upsurge of the proletariat and under military defeats, the Hitler apparatus-which through terror managed to maintain the capitalist system in Europe - is inexorably going down!

Germany's imperialist rivals are multiplying their efforts to eliminate this competitor in annexations and robberies against the peoples, while at the same time they are getting ready to take decisive positions with an eye to their coming attack on the Soviet Union. But the fall of Hitler on the other hand inspires the world bourgeoisie with terror and constitutes the main preoccupation of Anglo-Saxon imperialism.

The governments of Washington and London and, along with them, the industrial and banking magnates, know that the collapse of Hitler will give impetus to the revolution in Germany and through all Europe.

Imbued with this preoccupation, the so-called democracies are today at the Quebec conferences drawing up the most detailed plans to stem the offensive of the working class and to replace, without grave consequences to themselves, the man whom in 1933 these same "democracies" aided in taking power with the mission to crush the revolution in Germany and abroad.

Counter-revolutionary Aims of Allies

To divert everywhere the action of the workers through "democratic," patriotic or "anti-fascist" channels-according to the situation in each country-so that the violent convulsions of the present revolutionary cycle should not attack the foundations of the capitalist regime, such is the obsession of the bourgeoisie. This is the topic of discussion in chancellories, at the Quebec conferences and in the cabinets, already the sources of fulminations against soldiers and workers who try to fraternize with the revolutionary workers and the working masses of Germany.

The "Allied" bourgeoisie and its lackeys in the working class are straining with redoubled force to prevent the international proletariat from undertaking an independent struggle for its class aims, for its emancipation as a class; for the conquest of power with the aim of establishing socialism: the only way out for humanity is not to fall into barbarism.

Which way this historical dilemma-barbarism or socialism-will be decided: whether the crisis will be resolved within the framework of putrefying capitalism, or will end with the destruction of this system and the founding of the Workers State, this will depend solely on the struggle of the international proletariat, and, in the last analysis, on its most conscious wing: its vanguard.

As an integral part of the revolutionary vanguard we now call upon all other elements who pronounce themselves to be of the vanguard and we urge them wherever they are to enlist actively in the INDEPENDENT class struggle. We urge them to shake off that kind of skepticism which is the product of a failure to understand the attitude of so-called labor-leaders who beat the drums for National Unity and thus tie the class interests and class aims of the workers to the cart of the bourgeoisie.

. This Time the Workers Must Win

The struggle is not lost by the mere fact that the lackeys of the "democratic" or patriotic bourgeoisie persistently continue on the road of class collaboration and are making an effort to castrate the revolutionary will of the workers. The struggle, already begun, must be pursued and this time we must win it. This skepticism-which is also due to the fact that certain illusions have recently been shattered—this skepticism which undermines the revolutionary energies of a large section of the Spanish vanguard, must therefore be replaced by fighting energy and the determination to destroy the bridges-be they "democratic," "national" or any other kind, which the bourgeoisie and its servants are building.

The rich experiences of the workers' struggles in Spain cannot be forgotten by anyone. Everyone knows the white terror that reigned during the dictatorship of Primo de Rivera: the starvation wages, the shootings by the Civil Guard, the immense power of the Church, the unemployment. the misery, the jails.

If during the republic reforms were made (in any case achieved by the struggle of the proletariat) the economic basis of the State, of the bourgeois system, remained intact. The big landowners, finance capital, the economic power of the church, the armed forces which were overnight converted to republicanism, continued untouched while unemployment grew and wages dropped. Complete master of the economic levers, the bourgeoisie found in 1936 the opportunity and the strength to launch the military-fascist uprising, to resolve the crisis in its favor, and to retrieve the crumbs it had been forced to hand out under the pressure of the masses during the

Why Franco Won in the Spanish

republican-socialist coalition.

The republic of Azana-Prieto-Zamora breathed new life into bourgeois reaction by permitting the sacred rights of private property to continue and even defending them. And Franco, paralyzed during the first months by the revolutionary offensive of July 19 [1936], later became the victor thanks to the German-Italian fascist coalition; thanks to the "democratic" coalition of the Non-Intervention Committee and thanks to the 13 Point Republic [of Negrin] which, all in the name of the fight against Franco, dissolved the Committees of July 19, destroyed or corrupted the workers' and peasants' Collectives; jailed and persecuted the militants of the vanguard and the revolutionary "bands" while offering the hand of friendship to the clergy.

Franco did not win through the mere fact of receiving direct or indirect aid from the world bourgeoisie. This aid came as no surprise. The bourgeoisie will always and at any moment be united in its counter-revolutionary tasks. Thus it was in 1918-19 (and again now) in Germany. Thus it was in Russia in 1917 and thus it is getting ready again now against the Soviet Union.

Franco won out, above all, because the Spanish working class, in the absence of a revolutionary party, was sacrificed on the altar of bourgeois democracy. That is to say on the altar of the same cause and the same principles for which it is now summoned to fight. This is the most important lesson the Spanish proletariat must keep in mind from the experience of its past struggle if it wishes to escape another defeat.

Before the immediate perspective of the fall of Hitler, which is the perspective of the international revolution for a Soviet-Socialist Europe, the Spanish proletariat must prepare itself for the task begun and cut short in 1936. The struggle against the Franco regime is the struggle for the revolution. Franco, like Hitler, must in his fall drag down with him the edifice of the bourgeois regime.

Program of Revolutionary Action

of those who wish to return to a 14th of April [1931] or something similar, the workers and peasants will counterpose the spirit and attitude that inspired the struggles of July 19, 1936.

To the intrigues and evasions of "National Fronts" or "Anti-Fascist Fronts" which band together to seek a means of removing only Franco and his Falange, as in Central Europe they are looking for a way to replace Hitler and his S.S., we counterpose the UNITY OF REVO-LUTIONARY ACTION OF THE SPANISH PROLETARIAT the only force capable of crushing the Caudillo (Franco) and the bourgeois state that holds him up.

To class collaboration we counterpose the class struggle.

For the dissolution of the Army, the Civil and Assault Guards and the establishing of Workers Militias. For the arming of the proletariat.

For the expropriation of the landowners and the distribution of the land to the peasants.

For the socialization of the heavy industries and of transportation, and the nationalization of the

For the destruction of the economic and political power of the church and the dissolution of religious orders. Religion is the opium of the

First Issue of Spanish Trotskyist Paper

Organo del "Grupo Comunista Internacionalista" (Seccion Espanola de la IV Internacional) LVON 15 ENERO 1915 NI JUNTA DE LIBERACION, NI U. N. E.: ALIANZA Al proletariado español Maura al socorro de la burguesia

Reproduced above is the first issue of "Lucha de Clases" (The Class Struggle), organ of the Internationalist Communist Group, Spanish section of the 4th International. This paper, dated Jan. 15, 1945, is published in Lyons, France, where many thousands of Spanish working class refugees are located. Its headline reads "Neither the Liberation Front (Social - Democratic) nor the Spanish National Union (Stalinist): For a Workers' Alliance!" We salute our Spanish comrades who under great difficulties are pointing out to their fellow-workers the road to the overthrow of Franco and the capitalist system which produced and sustains the bloody Fascist dictator.

Imperialists In Greece

In the "New Leader" of March 10, 1945, Liston M. Oak who left the Stalinist party after his experience in the Spanish civil war and is now a staunch Social-Democrat (a right-wing one, if such a thing is possible) attempts to show that the Trotskyists talk "gibberish" when they explain and justify their support of the EAM-ELAS in the recent civil war in Greece, My explanation for our material support of the EAM-ELAS, which appeared in my article in The Militant of February 24, is to nim utter nonsense.

There is no doubt whatever ship t. That simply means that he does not understand the language variety) and liberals. of revolutionary Marxism. The fact that he left the Stalinist movement some time after it had ceased to be a revolutionary force and then joined the decayed social - democratic movement is conclusive evidence that he never understood the language of Marx-

Oak characterizes the struggle between EAM and the Papandreou Government backed by British imperialism as a war between "Russian and British imperialism." The victory of the former means totalitarianism: the victory of the latter means democracy. Hence we must support British imperialism.

For Marxists the term imperialism has a definite connotation. In general it means to us a stage of capitalist society where monopoly has displaced free competition, bringing with it the reactionary policies of finance capitalism. There is no law preventing one from using the term in any way he pleases; one can use it to designate the drive on the part of the Stalinist bureaucracy for prestige, power and wealth. But we insist on defining it in the Leninist manner. There is, howdiscussion on the nature of imnot relevant to the issue.

consisted of Stalinists. that he is unable to understand | Social-Democrats (of the Greek and not of the New Leader

> It is probably true that the Stalinists played the most important role in the leadership but that does not mean that they completely controlled the masses. All the information we have indicates that the Stalinist leadership did its utmost to avoid the struggle and to compromise it after the conflict began. Mainly responsible for the compromise which left the Greek masses without arms and therefore helpless against the tyranny of the reactionaries are the Stalinists.

What would have been the result of a victory for the EAM? In all probability the establishment of nothing more than a bourgeois republic. But it would have meant also an advance in the power of the masses who would have gained greater classconsciousness and self-confidence by virtue of the victory. It would have meant a big stride forward n the establishment of a workers' republic.

It is perfectly true that an EAM victory would have meant an increase in the power of the Stalinists and therefore an increase in the danger of totalitarianism. But the masses, with arms in their hands, with the confidence that victory would have given them, would not have easily succumbed to any dictatorship by the Stalinists. The probability is that the masses would have fought the Stalinists to the bitter end. There can be

Basic Truths

cast of the Trotskyist candidate, Myra Tanner Weiss, in her campaign for mayor of Los Angeles. This speech was delivered Sunday, March 25 over Station KFAC.

Last week I discussed with you the problem of the rising cost of living. We saw how the government froze wages while prices have continued to rise. I contrasted this with the profits of the cost-plus patriots. While labor's hands have been tied by the nostrike pledge, vast fortunes have been amassed by the bosses. The vast majority of the American people have only heavily-taxed paychecks, which they vainly try to stretch to meet increased prices.

The bosses know it will not be easy to reduce us to the status of starving paupers. As long as the workers are organized and free to fight for their rights, the capitalists cannot carry their program into action. That is why, in the middle of the second world war, we see developing a vicious anti-labor drive. They want to crush the labor movement so that there can be no organized threat to their ruinous rule of society.

In the post-war period millions face the prospect of no paychecks

"Divide and Rule" has been the method of reactionary ruling classes since the ancient days of Roman slavery. Here in America the government itself fosters race prejudice against the Negroes in the South by poll-tax laws which disfranchise millions. They have refused to pass a Federal anti-lynch law. They condone racial discrimination by Jim Crow practises in the army and navy, assigning Negro soldiers to the most menial tasks and services. For a country which is supposed to be fighting the race supremacy theories of the Nazis, these practises are a scandal and an outrage.

The capitalists do not begin their campaign against labor with frontal attacks against the trade-unions. They begin by diverting social unrest into channels of prejudice and hate directed against those sections of society which at the moment are weak and defenseless. In California it is the Japanese-Americans who are being terrorized by secret bands. These bands somehow always escape the police. The homes of Japanese-Americans are burned, shots are fired, the sheriff's office reports none were apprehended.

Suppose This Proposal Were Made in Japan

There seems to be no limit to the barbarity of this campaign of race hatred. I want to quote to you a statement made by a United States Congressman, a Democrat, Representative Johnson of Oklahoma. Now, mind you, I am not quoting Hitler, Goering, or even an ignorant, unknown American, but one who sits in the highest body of the nation. His statement was released by the House Appropriations Committee. Referring to the Japanese aliens held in United States segregation camps, he said "I will say for the record that we should make an appropriation to sterilize the whole out-

One would think this vile proposal, taken from the Nazi book, would provoke a cry of indignant protest throughout the nation. Were this proposal made in Japan as treatment for Americans held there, it would have become the atrocity story of the war.

I have written to both the CIO and the AFL, calling upon them to protest the vicious lynch attacks against the Japanese-Americans. Labor Alone Can Stop the March of Reaction If these attacks are not met by the united opposition of all labor, these secret gangs, successful in their first attempts, encouraged by their first victories, will tomorrow strike against other minorities and finally against the labor movement itself.

I have heard many say: "But these forces are small and isolated. They are not important." How familiar are these words! Was that not said of the Nazis before 1933, before they took power and crushed a labor movement proportionately far stronger than ours? These gangs are the first recruits of the American fascist party of that same period, again it was the Trotskyists who led an anti-

Here in Los Angeles we can observe all the symptoms of an incipient fascism. Race discrimination is one of those symptoms. so-called Zoot-suiters. In actuality this was mob terrorization of the Municipal League Bulletin predicted "increased need for firecity conditions and laws which drive Mexicans and Negroes into turbances." This pointed prediction of repressions from a capitalist the poorest districts, into over-crowded slums, by discriminatory politician should serve to warn and alert all workers. practices which sentence them to the most menial jobs. To prevent race riots we must fight against every law and usage which makes second-class citizens of any section of the American people.

Anti-semitism, persecution of the Jews, is not limited to Nazi three instances of attack against the Jews, despite the fact that Europe. One frequently hears that the Jews control everything. Begin now by voting socialist on April 3rd. Join with the Trotskyreal controlling powers in this country, are Christians, somehow, all men and women will truly be free and equal!

Issued by the Committee for Myra Tanner Weiss for Mayor

LOS ANGELES, CALIF., MONDAY, MARCH 26, 1945

Myra Tanner Weiss For Mayor! Thousands Hear Trotskyist Program

By the Compaign Manager

Sustained and enthusiastic work by the candidate, Myra

Tanner Weiss, and by scores of devoted Party members and
volunteer helpers assured the success of the Socialist Workers Party (Trotskyist) mayoralty campaign from the time
it was formally launched on February 3.

With a week to go before the primaries on April 3, the
Trotskyist program has aiready been brought to more thousands of workers in Los Angeles than in any previous corsands of workers in Los Angeles than in any previous cor responding period. From this point of view, the campaig

Facts About The **SWP** Candidate

In addition to radio broadcasts, rallies and meetings, the Socialist Workers Party has used the printed word to publicize its candidate for Mayor of Los Angeles, its name and program on a wide scale during the two months' campaign. 10,000 copies of this special paper, the "Trotskyist Campaigner," reproduced above, were issued. In all, more than 56,500 pieces of literature were distributed, including 20,000 copies of the election platform, 10,000 cards advertising the radio speeches, and 16,500 leaflets advertising election rallies. A new medium for Trotskyist publicity was bus advertising, used in the Harbor Area.

they never switch their argument to say that the Christians should be kicked out.

MYRA TANNER WEISS

Trotskyist Candidate for Mayor of Los Angeles

SWP OFFERS PLAN

ON POSTWAR JOBS

No! Jew, Christian, or Mohammedan-it is not any race or religion that rules society. It is a class-a profiteering class which owns the means of production. It is this class which must be kicked out. If they like, we can let them have some distant island where they can exploit each other, have their monopolies, their depressions, and their wars. And then we shall harness our vast technical resources to the service of man instead of to his destruction.

The only force which can stop the march of reaction is the la bor movement, united firmly by the bonds of exploitation and oppression. The Trotskyists will lead this struggle. We have proven our ability to act as well as to speak. In February 1939 when the Nazi Bund, the Ku Klux Klan, the Silver Shirts and the Coughlinites held a fascist demonstration in Madison Square Garden, it was the Trotskyists who called the workers to picket and protest. More than 50,000 people answered the Trotskyist call. In Los Angeles, in fascist campaign when a similar meeting was held here.

My opponents in this election have had little to say on the many manifestations of fascist reaction. Supervisor Roger Jessup, a can-More than a year ago there were riots in Los Angeles against the didate for mayor of Los Angeles, according to a report published in the Mexican and Negro youth. It was prepared long in advance by arms in the post-war period, which might result from economic dis-

There are two roads ahead, for America as for Europe: The fascist road or the socialist road. There will be no other choices. Either the capitalists will finally crush the labor movement, or the workers must take power, nationalize the means of production and Germany. I have been shocked to witness in the last year at least | plan economy for use instead of profit. In this municipal election you have the opportunity to indicate your choice. Shall we be slaves officially we're supposed to be fighting against such prejudice in or shall we be free men and equal? WE MUST make this choice. Therefore we should kick out the Jews. When I have proved to such ists in the fight against race discrimination! Join with us in the people that the overwhelming majority of the big capitalists, the task of creating a new and better world-a socialist world-in which

NAACP Demands Youngstown Chief

YOUNGSTOWN, March 17. -The Youngstown branch of the National Association for the Advancement of Colored People today demanded that Mayor O'Neill remove Police Chief Thomas, who on February 22 instigated the beating of four innocent Negroes. Without provocation or excuse, Thomas ordered the four colored men

hauled out of a quiet beer tavern and had them frisked and beaten by two police officers.

The NAACP was brought into the case immediately and after two weeks arranged an appointment between its prievance committee and Mayor Ralph O'Neill, who was elected with CIO sup-

At this hearing the mayor was charges made against Thomas by witnesses. But he refused to fire Thomas with the excuse that it was the police chief's first offense against Negroes. (Thomas had ing up white prisoners). The

Hoodlums Assault Jewish Children In Minneapolis

MINNEAPOLIS, March 28 -An increasing number of attacks on lewish boys and girls in the vicinity of Minneapolis' North Side was climaxed by a large mass meeting Monday night. Two thousand harassed and near hysterical parents overflowed the Lincoln Junior High School auditorium and in the presence of the Mayor, the acting chief of police, and several high ranking police officials, denounced the indifference and negligence of the police department.

Police officials who had come to "explain" the technical difficulties of making arrests were the audience who were well aware of the fact that police refusal to act immediately on complaints had contributed materially to the audacity of the attackers. Several times Captain Helin of the North Side station was interrupted by shouts and denunciations from was so much confusion that he was unable to go on speaking. Rabbi David Aaronson, one of the committee that had organized the mass meeting, was able to obtain order only after he promised that all written questions directed at the police would be answered by

Rabbi Aaronson set the tone for the whole meeting by his declaration: "I want to make it clear that these incidents are neither the product of the imagination, nor of nervous children, nor of nervous parents. If the city of Minneapolis does not do its duty by providing adequate police protection, North side citizens are prepared to offer their assistance to the police in-if I live to be sixty-five." department."

It is well-known that these anti-Semitic attacks have been inspired by native fascist "shirt" groups which have started to lift their heads once more and are spreading anti-Semitism along

with their anti-labor propaganda. The attitude of the audience was intensely militant. The police who spoke were interrupted by shouted questions from individuals in the audience, challenging heir statements and denying their allegations. A mother whose boy had been brutally beaten rose from her seat and accused the police captain and the North Side station of negligence. Striving to prevent herself from breaking into tears, she said: "I'm not the streets in safety."

Many young boys who had come to testify were unable to do so, but a few put before the microphone gave details of the beatings they had received. It was a common practice of their attackers to search for identification cards in their wallets if they refused information or denied that they were Jews. These practices had been going on for a long time, but apparently were now getting more frequent.

Here was the upshot of the meeting. The Mayor promised more adequate police protection: the policeman formerly on Plymouth Avenue (Jewish shopping district) was to be replaced; a squad car is-to periodically cruise the neighborhood; and educators will get together to see what they can do to correct this tendency of anti-Semitism through education in the schools Among those on the committee

who organized the mass meeting were members of the Jewish Council whose traditional method of fighting anti-Semitism is a studied public silence involving the suppression of news directly relating to anti-Semitic acts. A protest meeting of a mass character has never before been sanctioned by them. Pulling strings and seeing someone influential plus education against intolerance is their solution. However, it is certain that the pressure of distraught parents and a growing "do or die" attitude among the children finally compelled their inclusion on the committee. They did their share to soft-pedal criticism against the police. When the meeting finally ended, the audience, still unsatisfied, milled around their leaders, plying them with questions demanding effective action.

SUNDAY NIGHT FORUMS "The Socialist Future of Mankind" April 15 Speaker:

> V. GREY, Author of 'The Militant' Column

"Shop Talks on Socialism" ROI DAVIS BUILDING 905 Jefferson Ave. - Room 228-30

By V. Grey

"Pop, you goose-greased son of a sea serpent," said Breezy, who had come in a little high. "Don't you recognize your old friends any

"The last time I recognized you on a Saturday afternoon I had to buy you two drinks," Pop growled.

"So you admit it! What do you fellows think about that? Here's a man I thought was a friend of mine. That's life for you," he said tragically, slapping his side like Schnozzle Durante. "But I'm big-hearted. When I see you in this condition, Pop, I'll come right over to your side of the road and buy you three more drinks. How do you like that?"

"You don't have to buy me no drinks, Breezy. You save your noney for you old age. You can't work when you're old," Pop said. "Play young and work old. That's the only way," Breezy insisted. "How'm I gonna play when I'm old and dried up like you?-

Anyway I'm gonna live on the interest when I'm sixty-five." "What interest?" asked one of the first-shift boys who was washing up.

"Why my old-age benefit fund. What do you think? I been paying in on it for nine years now. Look at Pop there. He's a two met with unmistakable scorn by income man. Forty bucks a week from the company, and a pension from the government to boot."

"I got eight years to go, sweeping and hooking for guys like you before I get that royal pension, Mister Breezy." Pop was sort

"Eight years! Don't you try to tell this gang you're only fiftyseven years old, Pop! You're seventy-seven if you're a day." Breezy reconsidered-"I bet you're eighty-seven. Say, fellows, Pop's the people in the audience until there guy to see if you want to borrow money. Pop's got all that pension dough salted away somewhere."

For a minute some of the fellows looked at Pop as if they almost believed it. Then Breezy asked everybody in general, "Say, how much is that pension anyhow-anybody know?"

Nobody knew. But we were all thinking-just like Breezy would have been thinking if he hadn't been under the weather, "Gee, is Pop only fifty-seven? With all his wrinkles and rheumatism he really could pass for seventy-seven." And each one of us thought, "Will I be as old as that when I'm fifty-seven? Why hell-I might never live to be old enough to collect that pension.'

THE KIND OF "SECURITY" CAPITALISM GIVES

"I guess most of you guys are too young to be interested," Pop said, pretending he wasn't very much interested himself, "But the highest amount anybody can possibly get is eighty-five dollars a month. The average is about thirty-six dollars. I'll beat the present average, though, on account of the eight more years I'll be paying

Boy, isn't that beautiful? Pop will get about ten bucks a week in his old age. A hell of a lot of "playing" he's going to do.

"Yes sir, you fellows will be sweating your heads off eight years from now," Pop went on, as he opened his laundry and tied up his dirty overalls into a small bundle. "And I'll be sitting back" drawing down that 10 smackers a week." And being a thoughtful sort of cuss, he couldn't help but add after a second or so-"mebbe."

"Play young and work old" Breezy said. But how can you work when you're old. The plant doesn't want you. They'll throw Pop on the scrap heap one of these days, And you don't have the money to play when you're young, unless you neglect those you really want to take care of.

That's the capitalist system for you. That's capitalism and the kind of security it gives you-with money you yourself fork over. So what's Breezy going to do? Or anybody else for that matter? Butt his head up against the wall and wind up on the skids before his time?

There's only one thing we can do. Organize our forces to overthrow the whole rotten system. We don't want their starvation speaking as a Jew. I am an Amer- bread when we're old. We want a decent workingman's society, an citizen. I simply ask as a where a man fifty to sixty years old can make his own choice to citizen and a taxpayer that my keep on working, or take it easy, AT THE SAME GOOD PAY EITHER WAY. That's the way we'll fix things under socialism.

William Green, Philip Murray and R. J. Thomas burned, scores of union members were arrested claim that they made history when they signed a "peace pact" with Eric Johnston, representing the U. S. Chamber of Commerce. Far from making history, these union officials are repeating it.

Over forty years ago the leaders of the AFL signed a similar agreement with the foremost capitalists which resulted in the organization in 1901 of the National Civic Federation, Green's predecessor as AFL president, Samuel Gompers,

How a contemporary cartoonist viewed the capitalist-labor "peace pact" of 1901.

was one of the founders of the National Civic Federation and served as its vice-president until his death in 1924.

Together with such big business men as John D. Rockefeller Jr., Charles Schwab of Bethlehem Steel, Mark Hanna, boss of the Republican party, and such "impartial" representatives as expresident Grover Cleveland and Archbishop Ireland, Gompers signed the following statement of the aims of the National Civic Federation. "To do what may seem the best to promote industrial peace and prosperity; to be helpful in establishing right relations between employers and workers . . . to obviate and prevent strikes and lockouts." Similar phrases now stud the "new charter for labor and management."

Wage War Against the Workers

Collaboration with the capitalists became the cornerstone of AFL policy. The National Civic Federation preached war on industrial unionism, labor participation in politics, and social insurance. Its main aim was to prevent the organization of the low-paid workers in the massproduction industries. It was really an open conspiracy against the industrial workers between the employers and the craft-union AFL officials. Big Business was willing and well able to throw a few crumbs to the craft-unions in payment for such services.

But while AFL "labor statesmen" were going up and down the land, spreading the doctrine of "peace" between Capital and Labor, the employer representatives in the National Civic Federation were waging a savage war against the workers.

In this period Charles Schwab, the open-shop head of Bethlehem Steel, fought off all attempts to organize his steelworkers, using every device known to labor-hating employers—the blacklist, lockout, union spies and stoolpigeons, armed guards, imported strikebreakers.

Another "union-busting" employer on the National Civic Federation's Board at this time, was John D. Rockefeller Jr. On Rockefeller's record of anti-union terror the blackest spot is the "Ludlow Massacre." In 1914 several thousand members of the United Mine Workers went on strike against the Colorado Fuel and Iron Company, a Rockefeller corporation. They wanted an eight-hour day, recognition of the union, the right to trade in any store they pleased, and a ten percent wage increase. Other strikebreaking methods having failed, Rockefeller's agents unleashed a reign of terror in Ludlow. Women and children were shot down by machine guns, miners' homes were

and jailed on trumped-up charges. The miners were forced back to work.

These are only a few examples of the vicious anti-labor activities carried on under cover of the National Civic Federation, which made that organization hateful to every progressive worker. As early as 1911, the United Mine Workers presented a resolution to the Atlantic City convention of the AFL denouncing the National Civic Federation and demanding that the AFL sever all connections with it. Gompers was able to muster enough conservative votes to defeat the resolution.

Fight Against Nat'l Civic Federation

Twenty-four years later, however, when the revolt in the AFL against the traditional Gompers' policies was at its peak and the industrial union movement was gaining great power, the United Mine Workers' spokesman John L. Lewis offered the same resolution to another Atlantic City Convention of the AFLthe same convention which set up the Committee for Industrial Organization. This time the resolution passed. AFL vice-president Matthew Woll, who had taken Gompers' place and was one of the chief opponents of industrial unionism, was forced to resign from the National Civic Federation.

The resignation of Woll, the resurgence of the labor movement, and the rise of the CIO dealt a virtual death-blow to the National Civic Federation. Now Murray and Green propose to refasten this discredited policy upon the workers just when the bosses are speeding up their union busting

employer drive against labor under cover of the National Civic Federation.

Diary of a STEEL WORKER

By Theodore Kovalesky _

The foreman says, "O.K., there's a mess up on Number Two, f you want to work labor."

One or two of the fellows walk out, because they don't want to put in sixteen hours at labor pay. The rest of us, who have already worked eight hours on our own jobs and have gone down to try and get another eight hours, say, "O. K., we'll take it. Sure, we'll work," and we get shovels and picks and start down the line to Number Two blast furnace.

The night is very black outside, and edged with a rusty glow here and there where some furnace is flushing cinder. Back down the line, Number Seven is casting and the light flares spasmodically, one moment throwing our long shadows clearly on the ground before us, and the next, letting them fade back into the half darkness again.

Tom says, "Damn, I didn't want to work tonight. We had a tough shift. Coke mess."

Pete Rossi from the disintegrator looks at him. "You didn't want to work?" he says with mocking incredulity. "Why, I wanted to. I hate to go home." Tom says, "I believe you do."

Tom turned to the rest of us. "Last time Pete went home, his dog chased him around the block. He didn't know him any more, because Pete's always out here."

As we approach Number Two, we hear the roar of the "wind." The furnace is shift down, so the blast is being shot out into the

atmosphere with the steady, ear-crashing racket of a great tornado, the sound of a greatly amplified Niagara Falls.

We climb the stairs and see the mess. There is slag all over the floor where a cooler has burned, tuyere, blowpipe, and all. Part of the gang is at work doing their regular cleanup, but the blower, keeper, and stove man are trying to clear the cinder away from the cooler. We dig in with shovels and bars.

Jimmy says, "I knew I should have gone home at quitting time." I pick up a hammer and hit a bar the blower is holding. I hit it perhaps a dozen times, and he moves it to another spot. I hit it some more. We work quickly. It is said that the company loses a great deal of money for every minute a furnace is shut down, so the foremen are running around yelling and pitching in to keep this terrible cost down as far as possible.

We bang and dig for perhaps three quarters of an hour before we're ready to put in the new cooler. The whole furnace gang is working with us now, all of us sweating and grunting, but in spite of it all, laughing and joking. The night is young.

We get the cooler, tuyere, and blowpipe in. The stove tender runs down the stairs to "start up." When the blower gets his signal, he runs to the wheel and puts the blast back on. The great roar of the wind changes in key, slackens, and with one final squeak, dies out entirely, and all is quiet but for the hissing of the blowpipes and the muffled pounding of the blow-engines in the engine house" across the way.

We'll Shovel For the Rest of the Night

Lunch time. We walk slowly over to the restaurant, shivering as the sweat begins to cool in the night breeze.

Somebody says, "That was a hell of a way to start a double!" In the restaurant it is bright and we relax a bit over our meal. Bad as the food is, and dirty though the restaurant may be, we are grateful for it. It is good to sit there with our coffee.

When we get back, the foreman is waiting for us. There is a coke mess at Number Four stockhouse. We'll shovel there for the rest of the night.

At intervals we look up at the sky. But the dawn is a long time coming. The sky remains black, edged here and there with a rusty glow. The shovels become heavy. Our hands begin to burn. The usual indigestion, caused by the restaurant's inferior food and by our bodies' revolt at sixteen hours of work, rises up in our throats,

There is less and less joking. Pete scrapes his hand on a steel upright, scratching the flesh slightly. He swears, not with slight irritation, but with deep fury. The night wears on. By morning we are all silent. Silently we trudge back with the

shovels. Silently we start back to the locker room. But then, knowing we're finished, conversation starts up again.

Tom says, "Well, I've got to be back here in eight hours." I'm glad I don't have to be. I'm changing shifts, so I get time for a little rest, but I'll be tired too.

Jimmy says, "What's the matter, Pete? Still sore about hitting Pete says, "I was thinking. After they take out the tax, all we

get for working a double, including time-and-a-half, is about seven and a half bucks!" We're still swearing about that as we walk into the locker room. We think about it under the showers, and we're still thinking about it as we walk out the gate. But we know we'll do it again.

10 Years Ago In The Militant

APRIL 6, 1935 SACRAMENTO-Eight leaders of the Agricultural and Cannery

Workers Union were found guilty in the frame-up "Criminal Syndicalism" trial instigated by the California bosses. Sentences of from one to fourteen years were imposed by presiding Judge Lemmon, whose anti-labor prejudice has been evident throughout the trial.

Under the conviction, six other defendants were released and probation recommended for two of the prisoners. KRON—The stormy resistance of American workers to miserable

wages, unemployment, and rising prices under Roosevelt's NRA (National Recovery Act) broke out in full fury in Akron, where workers of the three major tire companies simultaneously prepared to strike. Despite their lack of experienced leadership, the workers at Goodyear, Goodrich and Firestone voted walkouts in defiance of the "compromise" tactics of the national leadership of the AFL.

ST. LOUIS-The strike wave swept westward as St, Louis Gas House Workers of Federal Union No. 18799 (AFL) walked out in protest against company provocations. Taking a lesson from the great Minneapolis strikes of 1934, the Gas House Workers immediately issued their own strike bulletin to win the support of other working class organizations. The Automobile Workers and the Filling Station Operators unions as well as two unemployed organizations responded with immediate aid on the picket line.

Freedom From Want

Whether Italy or France-conquered or "liberated"-victor or vanquished-the promise of the Allied leaders that this war would bring "freedom from want" has become a grim mockery. As the result of the war, the people in every country of the world face ever-growing scarcity of food. Whole continents are gripped by hunger and mass starva-

Even the closest friends and most favored allies among the "United Nations"-Belgium, France, Holland, etc.-beg in vain for food supplies merely to keep their people from dying outright or to prevent them from revolting against the capitalist system which condemns them to destitution and despair.

The utter economic chaos which prevails in all the war-torn countries is rapidly spreading into territories as yet untouched by military warfare. In Europe, for instance, the bulk of the food-producing areas are devastated or lie fallow. Much of the meager existing supplies cannot be distributed because of the breakdown and military diversion of transport.

Insofar as any food gets to the major population centers, it is beyond the reach of hundreds of millions of jobless, homeless and destitute. Currency inflation and the all-pervasive black markets restrict the greater part of available commodities to the rich.

Despite the glowing promises made to the "liberated" peoples, American capitalism cannot and will not save them from continued starvation. It is sheer hypocrisy when Byrnes says "as a Christian, humane people, we gladly do our part to relieve suffering and distress in a war-torn world." In reality the Anglo-American imperialists intend to use food solely as a supplementary weapon in furthering their schemes of world conquest and domination. As events in Greece conclusively demonstrated, the Allied rulers send or withhold food shipments, not in accordance with the needs of humanity, but in order to prop up the most reactionary regimes or to starve into submission the masses rebelling against capitalist rule.

Intolerable misery and want are not to be restricted to Europe and Asia. The capitalist rulers

plan to make the American masses pay for the costs and consequences of this trillion-dollar war through unemployment, wage-slashes, greater price-inflation and profiteering. Instead of bringing "freedom from want," this war is spreading and intensifying want not only in Europe and Asia but in this, the wealthiest of all capitalist countries.

There is but one solution for this greatest crisis in world history. Freedom from want can be achieved. But it can be secured only through the struggle for the abolition of the profit system and the creation of the planned economy of international socialism.

Exposing A Fraud

From the beginning The Militant has opposed and exposed the campaign to enact a forced labor law as a strikebreaking, union-busting conspiracy engineered by Big Business and its military and political agents in Washington. Every other pretext advanced by the slave labor advocates has been shot to pieces. In recent weeks their sole remaining argument has been that a slave labor law is needed to "boost the morale" of the men in the armed forces.

But Roosevelt's Director of War Mobilization and Reconversion, James F. Byrnes, gave the game away completely, when he reported to Congress that "manpower legislation" was required not only after the military collapse of Germany, but AFTER the end of the war in the Pacific. The sharp reaction in the Senate to this statement has led observers to conclude that the pending "compromise" manpower bill is doomed to defeat.

Senator Wayne Morse of Oregon last week disclosed that he had received "pressure" telephone calls from Administration officials expressing "fear" that unless they got a forced labor law for use "after hostilities cease they cannot meet the unemployment problem in this country."

This provides added confirmation to our editorial analysis in the March 31 issue of The Militant in which we stated:

"The drive for additional measures of labor repression to be applied AFTER Germany is defeated completely exposes the fraud of 'peace, security and jobs-for-all' in the 'post-war' period. If capitalism could guarantee a decent standard of living for the masses on the basis of 'peacetime' production, it would have no need of strengthening its machinery of repression. On the contrary, it cannot maintain even the present low standard of living but must drive it still lower. This end cannot be accomplished by 'peaceful' or 'voluntary' meth-

Food Profiteers

The food shortages, the devastation and wastage of the necessities of life which are the inescapable consequences of the imperialist war inflict ever greater suffering upon the masses. But these worsening conditions come as a heaven-sent opportunity to the food trusts, speculators, black marketeers and all the other parasites who thrive at the expense of the people.

Food, like every other commodity under capitalism, is produced not to satisfy the needs of the people, but solely for profit. The production and distribution of food in this country is controlled by giant monopolies like the meat packers, milling interests, dairy trusts, packaged food corporations as well as by huge retail grocery monopolychains like the A & P.

The mad chaos of these monopolists after profits prevents any rational organization of the warlimited food supply and any approach to an equitable distribution of the scarce commodities.

On the contrary, they seek to exploit shortages by charging exorbitant prices, by black market operations, by withholding supplies to force up prices. In addition, through their governmental agents they extract huge subsidies from the public treasury and when they cannot secure all their voracious demands, they deliberately create further scarcities as a means of blackmail.

Thus P. O. Wilson, executive secretary of the Livestock Producers Association, brazenly declared: "When this nation makes up its mind that it wants meat it can rewrite the rules and regulations so that it will again be possible to produce the amount of meat we need." This is an admission that the people will be permitted to have meat only if the government surrenders unconditionally to the demands of the profiteers.

And this capitalist government, which is so adamant against the wage demands of the workers, hastens to comply with the price-gouging demands of the food profiteers. Just last week, after it had been revealed that the meat packers are making seven times their peace-time profits, an emergency court of appeals in Washington invalidated certain OPA meat price ceilings to permit sharp rises.

Capitalist war merely continues and aggravates the economy of scarcity and hunger for the masses that prevails at all times under the capitalist profit system. Roosevelt himself, who today calls on the American people to "tighten their belts," enforced the planned destruction of commodities such as cotton, corn and hogs during the period of the New Deal depression to bolster prices and profits while millions went ragged and hungry.

In wartime or in peace, the masses are compelled to go without adequate food and clothing to enrich a small gang of capitalist exploiters.

The workers here and elsewhere are learning this lesson of the class struggle from their own

IVES-Quinn Bill— But the company didn't want to A Small Concession

Under the pressure of organized labor and minority groups, and especially in an effort to corral the Negro vote in the state of New York, a small concession has been won in the form of the Ives - Quinn Anti - Discrimination Here we see the great unrest

vithin the troubled waters of the Negro community being gently to conclude that this bone falls from a table of conflict.

What does the Ives-Quinn bill copose? And how do they propose to enforce it?

The terms of the bill cover discrimination in jobs, labor unions, employment agencies, and the printing of advertisements ing the union; how he was a big overthrow the existing govern- which imply discrimination based sons are exempted from commembers of trade unions and pliance, as well as social clubs, fraternal, charitable, educational and religious institutions or ganized on a non-profit basis.

A state commission is to be set up consisting of five members appointed by the governor. This commission will receive complaints of discrimination in employment, investigate and pass upon them. The orders of the commission in such cases are enforceable through court order and if defied are punishable by the

A close examination of the bill discloses that only the industrial field which offers employment to a fair percentage of New York Negroes is covered by the law. The other percentage who constitute the medical, educational and domestics are still left wide open to discrimination because of the wording of the Bill.

It is therefore necessary for us to tell the workers to accept this A: No, although one was rec-slight concession. But accept it only as a foothold in the wall

Why Allied Bombs 'Miss' **Some Plants in Germany**

Amid the slaughter and devastation in the Rhine and Ruhr areas after three years' of merciless bombing, American troops were startled to discover huge war plants virtually unscathed. They are plants n which American and British capital is invested.

Writing from Krefeld-Uerdingen, Germany, Chicago Sun correspondent John M. Mechlin reported last week in a delayed dispatch that American soldiers are asking "with ill-concealed sarcasm" how it happens that they found "several giant factories running full blast," including those of the Krupp steel, I. G. Farbenindustrie chemical and Wagonfabrik automobile trusts. All these companies have been associated in cartel deals with American and British

"There is a rumor circulating that the reason the Allies did not bomb the Wagonfabrik plant is because six members of the company's board of directors are Englishmen . . . the rumor is important because the Yanks believe it," says Mechlin.

In the New York daily PM, March 27, Max Lerner reporting on his tour in the Rhineland, stated that "it gave me a jolt to see American industrial plants in Neuss. It also gave me a jolt to find out that the Ford motor plant in the suburbs of Cologne was relatively unharmed." He added that there is "bitter suspicion" among the American troops. "They think that British and American air bombardment deliberately spared factories in which Anglo-American money had been invested."

·When asked at a press conference why these particular vital war factories were skipped in bombings for over three years, Gen. Arnold, chief of the U.S. Army Air Forces, first asked, "What reason could there be for missing them?" Informed of the Anglo-American financial connections, he passed off the whole matter laughingly, saying "I could say something about that, but I won't."

One of the greatest scandals after the first imperialist World War was the revelation of the "gentlemen's agreement" between the contending powers not to shell or bomb plants from which capitalists on both sides of the lines were making blood profits. The second imperialist World War-in which the suffering of the masses has been incalculably worse than in 1914-18-also finds the capitalist rulers safeguarding their mutually profitable interests.

War Boosts Profiteering To New Record Heights

Despite all the flag-waving propaganda about the reasons for high prices and wage-freezing, the real explanation can be found in the latest figures on wartime profits.

"Last year (1944) was the most profitable of the war period for industry," reported Bernard T. Frevert, editor of Standard & Poor's Trade Service, last week. Each year of the war has seen corporate profits reach new all-time record heights. But in 1944, "net income, after taxes, of the 625 companies that have reported to date, aggregated \$1,574 million, or 2.9 per cent over the \$1,529 million of the previous year (1943)," Frevert reports.

An example of the monumental war profiteering is General Motors, the multi-billion dollar trust whose workers were recently denied a general wage raise by the WLB. On March 29, GM's head. Alfred P. Sloan, Jr., reported 1944 net profits of \$170,995,865 as compared with \$149,780,088 in 1943.

Frevert states that despite these profits gains "big business cannot be accused of profiteering." Sure, sure, the capitalists haven't taken the worker's pants yet. Not that they aren't trying!

War Food Administration Blamed For Shortages

Charges that War Mobilization Director Byrnes, oiled. One need not be too brilliant Roosevelt's "Assistant President," recently established a food export control committee "inspired by the War Food Administration to cover up its responsibility for the drastic food scarcities which the nation now faces," were made in the April 1 issue of the United Automobile Worker, CIO. The UAW's Consumer Bureau contends that the

War Food Administration, "frankly acting to protect the profit interest of U. S. food trades," has been talking about the "danger of a food surplus for a long time." Only last December Food Administrator Marvin Jones "told high officials at the White House that there was no need for rationing." Jones promoted a policy of "getting rid of food as

fast as it was available" without rationing. "Not only have plans not been made to conserve American food supplies against the present shortage, but actually much of the present shortage was planned by the War Food's production plans of two years ago, and the rest of it has resulted from its program, announced last May, to keep commercial and government food shelves down to minimum stocks," states the auto vorkers' paper.

"It was a deliberate wartime application of the scarcity technique which any good food monopoly uses whenever it can," the statement further charges.

The new food export control committee was set up to "shift attention away from Jones' lack of foresight" by blaming the shortage on the export of food to starving Europe.

"Tip-off is in the praise voiced by Paul Willis, head of the big food manufacturers' combine, when the export limitation committee was announced," says the United Automobile Worker. "This step meant to him more profits from selling scarce food supplies to

American consumers." Reactionary Congressmen seized on the issue to divert blame from the administration and food profiteers on to "Europeans who want food from us when we can't have all we want."

The paper concludes: "There will be no congressional investigation by either political party (Democrats and Republicans). Both parties are in on the deal, and the scheme is to keep it hidden by persuading American plain people that they are at R. Murdoch war with European plain people for a share of a New York | limited supply of food."
