Mine Operators Forced To Yield Wage Increases

The militant soft coal miners have forced the reluctant mine owners to sign a new union contract granting wage increases estimated to average \$1.25 to \$1.50 per day for a six-day

11. eleven days after the lapse of the old contract. The operators | Veterans Discover hastened to sign after government threats, culminating in a government mine "seizure," failed to halt widespread mine strikes which at their peak involved over 300 mines in eight states employing some 100,000 workers.

These spontaneous walkouts occurred despite a 30-day extension of the old contract. The miners were determined to show they meant business by their eight-to- office for jobs last month, only one strike vote in an NLRB poll further stalling from the mine bosses who have rolled up the zines and radio about the enormbiggest profits in their history.

On the same day the agreement was signed, the late President Roosevelt, in one of his last official acts, ordered the "seizure' of 235 struck mines. This action was taken at the request of the from the old \$50 limit. Premium War Labor Board, which had in- increases of 4 cents and 6 cents tervened unsuccessfully to order an hour were granted to second the miners back to work.

NEWS BLACKOUT HIDES RISE IN UNEMPLOYMENT

Industrial 'Demobilization' Plans Ignore Thousands of Discharged War Workers

By C. Thomas

Cutbacks in war production are mounting behind a veil of military censorship intended to conceal the full extent of layoffs due to war contract cancellations and plant shutdowns. The boss press, which a few weeks ago was screeching for a labor draft to meet an alleged manpower shortage, has fallen in with the hush-hush policy of the administration and its brass hats. "No news stories, no headlines," observes one labor commentator. "But every day hundreds more are told 'No more work after Monday, all men with less than two years seniority are per-

WHAT CAN LABOR **EXPECT OF TRUMAN?**

By Joseph Keller

The death of Franklin D. Roosevelt has suddenly lifted into the office of the presidency of the United States a man who is little known to the majority of the American people. This comparatively obscure figure, Harry S. Truman, now stands at the head of the greatest military, industrial and financial power in the world. As the chief executive officer of the ruling capitalist class in the United States, his words and deeds will directly affect the lives of all American workers and the future welfare of the hungry, tortured, war-weary masses throughout the world. Universal interest is now fo- capitalist class today. The entire

Two Kinds of Justice

In the March 31 issue of The Militant, this column described how for nine years - since 1936 - the Weirton Steel Company has successfully fought CIO unionism through murderous terrorism also how throughout all these years it has defied numerous federal court orders and NLRB rulings to grant collective bargaining rights to its employes. The company plans to defy these rulings for another seven years through the aid of friendly capitalist courts and slick legal maneuvering.

Last week, Circuit Judge J. Harold Brennan at Weirton, W. Va., sentenced 15 CIO United "unlawful assembly" at the Weirton plant gates. Weirton is By the end of 1943, according a company town, run by com-o the OPA estimate, "real" pany officials and police, enforcweekly earnings of finance, ser- ing company laws. HIGHEST WEEKLY TOTAL

Last week Eloise Black and Rudy Rhodes, the Militant Trail-Blazers, secured 176 subscriptions from workers in Rochester, N. Y. This is the highest number yet secured in one week's work. Their subscriptions now total 532.

Here are a few excerpts from D their enthusiastic reports. "We day that a deep layer of the workhave met a pretty fair cross- ers in Rochester is prepared to section of the Rochester working- embrace our program and strugclass. Among the new Militant gle for it. The Militant will play readers are workers from all the a tremendously important role in local industries (garment, Kodak, advancing the political thinking optical, instruments, etc.) in- of these workers. cluding a dozen different nationalities. We continue to be impressed by the almost uniform of introducing the concept of class degree of class-consciousness we struggle to a young teamster for

CONDITIONS AT KODAK

"Most of the workers are in the lower wage brackets. Eastman Kodak, a large plant employing thousands, is unorganized. Rumor has it that the company spent 15 millions to fight the union. It's a powerful outfit linked up with the duPont gang. Working conditions are lousy - they have a halfdisguised incentive pay plan in operation, and a killing 10 hour day Workers tell us about Kodak's international monopoly. which provides an opening to talk to them about the need for internationalism in the workers' struggle. One indignant woman, who subscribed to The Militant, told us that after sweating 10 hours a night for Kodak, her husband falls asleep and is too tired to come downstairs to dinner. She, as others we met, jeered at the promise of 60 million jobs after the war.

"Two Kodak workers, former talking with them for half an hour after they subscribed. We discussed the treacherous line of politicians to use the war as a thoughtful. Two other teamsters means of further enslaving the Jeff Thorne of Flint writes that workers. These men were bitterly fighting the bosses politically with ago for incentive pay. They

> for the entire working population Diary of A Steel Worker and of Rochester. It is not only the was so interested she said: Til the letting of contracts and other friend's husband works in the indirect channels. Kodak controls practically all of the production carried on here.

ITALIAN WORKERS

"Italian workers who have watched events unfold in Italy are obviously undergoing a great political education. Many of their old illusions have been shattered. Both the old workers and the younger ones are receptive to the program of socialist struggle. Our internationalist program has a powerful appeal to these people. But when other workers, for other reasons, are equally aroused and enthused by our ideas, we get the impression more strongly each

"The highlight of the week occurred when we had the pleasure the first time in his life. It was worth a week's work to see dawning in his consciousness the fact that behind the politicians, the daily press, the high-priced labor skates and all the mumbo-jumbo about sacrifice for the war stood the bosses, engaged in unceasing struggle against the workingman.

"We first won his ear when we demonstrated through the example of the miners that behind the strike to which workers resort in self-defense lies a mountain of provocation by the capitalists who have sacrificed nothing in the war. When we started to talk with him, he was inclined to scoff. He defended the no-strike pledge on the ground that strikes harm the welfare of the soldiers. We pointed out that by defending their living standards and working conditions against the profiteering employers' attacks, workers forced out on strike were also defending the welfare of the men in the armed forces, most of whom are workers or sons of working people.

TAKES TWO SUBS

"By the time we left, he bought a sub to The Militant, Joseph party, and was serious and quietly yesterday greeted our program of loud approval and are likewise

"Last night a girl passing by joined the group and after scanning The Militant a moment asked for her subscription. An-"This is particularly interesting other woman, whose husband take two subscriptions; steel mill too.

"During the warm evenings when the workers pour out of their houses to cool off and relax after dinner, we talk to family groups and groups of friends. Not only do subscriptions pour in, but great interest is aroused in The Militant's program on a neighborhood scale."

Chicago Forced Labor Plan Used To Lower Wages

CHICAGO, April 12 — The government's forced labor "referral" plan is being pushed in this area at a time when production cutbacks are beginning to cause widespread layoffs.

Although this has been declared a "critical labor shortage area" with a minimum 48-hour week, layoffs are occurring, especially in the higher pay, better organized plants. The only labor shortage is in plants paying from 50 cents to 80 cents an hour. The "referral" plan is being used to force the higher paid workers into lower paid jobs.

At one large plant manufacturing airplane motor parts, there was a recent lay-off of 20 per cent of the workers. Another 10 per cent of the remaining force suffered "relocation" to other jobs of lower skills and pay. Grinders, polishers and inspectors, formerly receiving \$1.20 to \$1.30 an hour, have been transferred to chip pullers, oilers and "broom pushers" at 95 cents per hour. Those who left the plant seeking jobs at their own skills, particularly the men, were not given releases but were forced to take referral cards.

REFERRAL CARDS

N. Y. Phone Strike Voted 25 to 1

NEW YORK, April 17 -18,000 local and long distance telephone operators here today voted overwhelmingly for strike after a WLB decision reduced to \$3 a \$5 per week wage raise recommended by the board's own panel.

The Traffic Employes Association, the local operators, voted 9,999 in favor of strike, with 540 against. The Long Lines Telephone Workers voted 3,814 to 18 in favor of strike action.

Both unions had demanded \$5 a week increases. The case was stalled for two years by the WLB. After a strike threat three months ago, the company offered \$4. The WLB, rejecting a panel recommend-ation, slashed it to \$3.

Under a release, the workers per hour, was offered a 95-cent

work. So what did we have to lose!"

to prove he was wrong.

"Anyhow," Slim went on, "I remember all the fellows in the first bus load got out on the road and stopped all the rest of the buses themselves. First we were going to drive the buses right back home ourselves. Then some faint-hearted guys let the drivers call up the company agent, and he hot-footed it over with a couple of lawyers. They argued for an hour about the contracts we signed. But it didn't do 'em any good.

"Finally they persuaded us to stay overnight in a hotel at their expense. We knew damn well they wanted to work on us again the next day. But we were all tired. The only thing I was afraid of was that we'd all have to hitch-hike back. But we took care of that by making the bus drivers bunk in with us. And every last man of us went back in the morning."

"Remember how we made the drivers pick up all the hitchhikers on the road back?" gloated Breezy.

"The point is. . ." Slim closed up his lunch basket, "that hardly any of that gang had even been in a union at that time. They hadn't even started to organize Bethlehem into the CIO then. But we had sense enough to stick together with those guys we never even saw, no matter how green or hard up we might have been."

The Gravy Train

Here's the gravy just one investor scooped out of the auto industry. Mrs. Rosetta V. Hauss, sister of the late Michigan senator James Couzens, "got in on the ground floor" in 1903 with an investment of \$1000 in Ford Motor Company stock.

In 1908 she bought 20 more shares out of her five-year profits. When she sold her stock back to Ford in 1919, she received \$260,000, plus \$90,000 in cash dividends-a total of \$350,-000, on an initial outlay of \$1000. This was 3,500 times her investment!

(From April 15 "United Automobile Worker," official organ of UAW-CIO).

The Republic Steel Corporation job in the capacity of bricklayers' helpers, an exceedingly hard and rock-bottom support of the of 28 women in the Youngstown time at its other Youngstown

operators, left their jobs in plant is known for its militancy. With this bit of Jim Crow provocation, the company hopes to weaken the union.

The company showed its duplicity in that, while they played the role of the party that insisted on equality, they refused admittance

The agreement finally arrived were til their job in the plant is done; then they will return to the other plant. In the future, if Negro women are hired, a separate dressing room with equal facilities is to be built.

The mediator assured the local grievance committee that this was not discrimination. Naturally, from the fact that the government itself practices Jim Crow in the armed forces, flows the concept that segregation is not discrimination.

The local leadership took the mediator's word at its face value and thus the walkout ended after sixteen hours, with the women returning to work.

This agreement mistakenly supported by the local union is exactly what the company wanted. They have weakened the faith of the Negro worker in his union and, at the same time, taken the workers' minds off the problem of unsettled grievances.

The Republic Steel Corporation knows full well and plays upon the prejudices of the workers. On the one hand stirring up . racial trouble, and on the other setting the women - themselves a minority - in a separate category

This must be recognized and fought against by the union members. The task now is for the Negro women together with the ocal, to fight discrimination.

With the CIO in the district packing up the fight for equality, this attempt on the part of management to weaken the local union can be repulsed. Then once more, strengthened by this solidarity, the union can gird itself in unity for the coming struggles with the steel corporations.

Celebrate This May Day With The Trotskyists In Your City THE MILITANT invites all its old friends and thousands of new readers

to observe May Day, the international holiday of the workers, by attending the meetings of the Socialist Workers Party branches listed below. The Trotskyists are the only group in America who are celebrating May Day this year in its true spirit of workers' solidarity and struggle.

Egyptian Socialist Front Enters Election

For the first time in the history of Egyptian elections, socialist candidates this year were able to secure a place on the ballot and conduct a widespread campaign to popularize the principles of socialism. The Mid-March issue of Socialist Appeal, organ of the Revolutionary Communist Party of Great Britain (Trotskyist), tells of this unprecedented campaign culminating with the January 8 elections, and of government attempts to intimidate and suppress the socialists.

In Cairo, Dr. Fathy el Ramly ran for the constituency of Maha fascist candidate, Ahmed Hus- For Indian Women sein, a leader of the "Green Shirts" who advocate a military dictatorship.

A "Socialist Front" formed in support of Dr. Ramly at first included two Stalinist organizations in addition to the Trotskyist movement in Cairo. But as the electoral campaign took on the predominantly internationalist and socialist character advocated by the Trotskyists, the Stalinists withdrew. Unaffiliated university youth and advanced workers rapidly filled the gaps caused by the Stalinist betrayal. The entire Trotskyist movement has gained in membership and influence as a result of its election activities...

SOCIALIST PROGRAM

The Socialist Front presented a program of transitional demands including the establishment of wage-minimums; a sliding scale of bonuses to meet rising costs of living: workers' control through trade-union delegates over the execution of all social legislation. It also advocated social insurance and old-age pensions; a nationwide housing program; equality for women; abolition of martial law and of all semi-fascist police regulations. The Socialist Front with all working class movements against imperialist rule and capitalist domination.

Questions in the House of Commons addressed to Secretary of State for India, Amery, revealed that women are working in Indian mines for a penny an hour and up. Amery admitted: "The rates of pay are, of course, low but they compare favorably with rates in other industries in that part of India." Asked whether expectant mothers were prohibited from going underground Amery "understood" that they were kept out of the mines a month before and after the birth of the child and received maternity pay during the period.

"Is there any intention," an Independent Laborite queried, "of 'slavery' because work in the mines is entirely voluntary."

Voluntary, indeed! Work in the mines or starve to death! On the day of the election representatives of Dr. Ramly

Belgian Miners Blast Imperialists

At a delegated conference of miners from the coal mines of the Charleroi basin in February, the following dramatic exchange took place between the mine workers and Allied officers who were attempting to prevent an extension of the strike to the Charleroi area.

'What a difference," the officers said, "with September 1944! Then your women gave us drink and presented us with flowers. Now you are sabotaging the war by striking."

One of the delegates replied: "Gentlemen: it is true that we joyfully acclaimed your arrival because we saw in you our liberators. Alas! we see now that like the Germans you are supporting the exploiters."

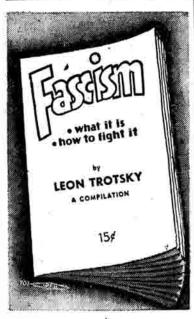

Another delegate continued: "When Hitler's armies came to Belgium the workers were not inclined to look on that too badly, believing that they were going to put the bosses in their place. But when they saw that the German authorities, on the contrary, supported the bosses against the workers in order to obtain the most possible coal, then we began to sabotage. Today, like Hitler, you are also supporting the bosses. And you are surprised because we are thinking of going out on strike?"

England.

The strike of 10,000 London dock workers, reported in the Militant, March 17, was a major rank and file revolt against vicious practises and intolerable working conditions imposed by the government and enforced by the trade union bureaucrats in collaboration with the Stalinists. according to reports just received from the British labor press.

One of the grievances that provoked the strike was the suspension without pay of men who refused to go at a moment's notice to jobs they were assigned in ports scattered all over England Another was the suspension without pay-for leaving a job they had been working on under compulsion for 16 days in a row from 8 a.m. to 10 p.m., with no meals provided.

The press reports that when the union officials attempted to speak at a mass meeting to get the men to return to work they were howled down by the longshoremen who refused to allow them to continue speaking The vigorous action of the rank and file brought the strike to a partial victory. despite the sabotage and opposition of the union leadership.

A union committee was set up to investigate the practises of the government dock corporation. If Russia-should stand aside and the report is not satisfactory the dockers decided to strike again. In the meantime suspended workers are to return to work pending regotiations.

In discussing this dock workers strike the London Tribune makes he following significant comments on recent strike movements n England.

"What is most amazing in these disputes is the almost universal reports that the 'men's leaders were howled down.' This is the most dangerous factor that has emerged in the Trade Union world for a decade, and it requires more than bad temper to explain it away. It is true, naturally, that they are tired and irritable because of bombs, loss of homes, rest and sleep. But that does not explain it all away. There has ELAS.

business has been reported. Does "progressive and die-hards." The The Duke was not only one of this signify that the Trade Union workers must line up with the naval admiral, is a fitting sequel the chief lieutenants of Mussolini leadership has lost control of the to the mysterious "escape" during but he was crowned as Tomislav membership whilst controlling the by Eric Johnston of the C. of C, machinery of the unions more effectively than ever? Or does it NAM, the auto, steel, rubber bashow that the rank and file are in revolt against the method of appointing the officials who are sent to tame them to return to for the New York Post - which

Greece

The following letter was received by the Socialist Appeal, organ of the Revolutionary Communist Party (Trotskyist) of Great Britain, from a British soldier stationed in Italy.

"About a week ago I met a paratrooper who had just returned from Greece. The subsequent chat I had with him brought some interesting facts to light. It seemed that there were quite a number of lads who refused pointblank to take up arms against ELAS and no amount of threats and persuasion could make them change their minds.

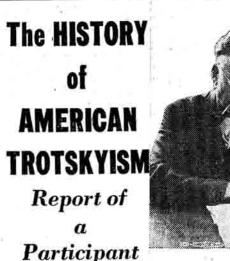

"Of the majority who did fight, well, it seems that they were absolutely confused as to what it was all about. I think that the majority must have realised in a hazy way the class nature of the struggle, because the officers who gave the pep talks constantly eferred to the role of Russia.

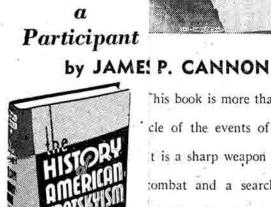

"Their main arguments were these people couldn't possibly be communists but only brigands from the hills' for surely if they were real communists 'how could it be that Russia-Communist not assist them?'

"Of course it is easy to see how most of the British soldiers had the illusion that the Soviet Union is still communist in the revolutionary sense, not having any indication of the changes in Russia. I can quite imagine how they were confused by the Greek flare-up. Nevertheless the fighting, bloody as it was, certainly set many minds working on the 'whys' and 'wherefores'

as the above facts prove." We have reported in a previous issue of The Militant a mutiny of Indian Gurkhas who, when ordered to fight against the Greek

people, deserted to the side of

Dr. John Hewetson and Philip Sansom both gave up remuner tive careers to engage in the antiwar movement and struggle for the working class.

VIOLATE FREE PRESS

The arrests followed a series of police investigations and raids. The files of the British anarchist paper, War Commentary, were seized by the police last December and have never been released. The prosecution based its "sedition" charges' upon quotations from War Commentary and a circular letter issued by Freedom Press last fall. The letter had been found in the kits of three privates n the English forces who were brought in as witnesses. Three Captains stated that they had conducted searches upon the instructions of a 'higher authority'."

The Prosecutor himself maintained that "Anybody is entitled to hold such opinions if they wish to hold them." He rested his case upon the fact that three men in the armed forces had come into possession of the leaflet, which could lead to "disaffection." None of the four arrested were called to give evidence, although both the prosecution and defense declared the case involved free dom of the press.

A defense committee to protest the violation of freedom of the press and to defend the 4 arrested anarchists was set up on March 3 to include all individuals and organizations concerned with civil liberties and labor's rights. Officers of the Committee are Herbert Read, Chairman, Ethel Mannin, Secretary, Fenner Brockway and Patrick Figgis, Vice-Chairmen, and S. Watson Taylor,

Diary of a STEEL WORKER

By Theodore Kovalesky. The floor shuddered. There was a sort of muffled WHOOOOM that was indistinct and yet all around us, filling the air, tearing

our attention away from the things we had been talking about as we sat waiting for the iron ladles to come in. The stove man leaped to his feet and raced to the wheel. With a rush and a roar we heard the blast as he pulled it down, sending the pressure howling out into the atmosphere. The engine house

signal rang out. Intently the stove man watched the pressure gauge before him. Then, satisfied that the furnace had finished "slipping," he swung his weight around the wheel once more. The roar died down and squeaked off. "Damn furnace been slipping

all day long," he grunted, coming back and sitting down on the bench. "Rolling and heaving to beat hell." "Bad furnace," Jimmy said.

"Never know what'll happen when she gets like this."

The Old Man put down his coffee bottle and reached for his pipe. It was a terrible pipe, black, half burned away, half chewed up, and strong as a team of mules. It was said that the Old Man locked his pipe up when he wasn't using it so it wouldn't get up and walk away.

The Old Man packed some Five Brothers into the poisonous bowl of his pipe and said reflectively, "I seen one of them blow up once." We looked at him. "Where, Old Man?"

"Down Alabama. They had a pig-bed there; didn't cast into ladles like up here. Fifty, sixty men working on the pig-bed. Killed

Young Lonnie's eyes were wide. "How'd it happen, Old Man?" The Old Man was filling the room with pungent smoke, Jimmy

made a face of disgust, held his nose, and moved away from him. The Old Man looked coldly and levelly at Jimmy for a moment and then turned back to us.

"Don't know, son," he said to Lonnie. "Can't say what goes on inside of one of them big furnaces. All I know, she was bad. Sloppy. Rolling and heaving all day. Trying to come back in the tuyeres. Bad furnace. BAD!"

What I Thought About the Old Man's Story

He paused, but nobody interrupted the Old Man. We waited for him to speak again. He had the floor,

"I was going home that night. I didn't work on THAT furnace," he added modestly to show that he was not the hero of a hair-breadth escape, "but I worked a little down the line. And all of a sudden I heard a big rumbling and roaring, and I looked around, and it looked like the whole world was lighted up! I started running, and I guess everybody else did. But then I come back." A pause. More bitter smoke from that terrible pipe.

"Killed every single one of em," the Old Man murmured. Looked like some of em ran HALF a MILE and fell over dead! I swore I'd never go up on another furnace as long as I lived."

There was another silence. "Never know what's going to happen when a furnace's running

bad," the Old Man said, and he added, ". . .like this." Negro as well, denied opportunities, driven by the whip of economic

needs, hounded and driven back to that very place of terror that he had fled from. And I thought of the rest of us, chained to our jobs by the decrees of the government as well as the needs of our families and ourselves, and, worst of all, earning on these jobs a dollar an hour or less in the world of 1945. And I thought of the profits of the steel companies.

I started to speak, but then once again the floor shuddered. There was a muffled WHOOOOM, and the stove man leaped to his feet and raced to the wheel.

10 Years Ago In The Militant

APRIL 20, 1935

SACRAMENTO-Eight militant workers, found guilty of "criminal syndicalism" by the California courts on April 1, were sentenced to indeterminate terms of one to 14 years, as anti-labor Judge Lemmon denied motion for a new trial.

Two of the convicted leaders of the Agricultural and Cannery Workers Union, recommended for probation, scorned the clemency of the capitalist court. Said the Trotskyist Norman Mini: "Our conviction is the logic of the class struggle. But the same class struggle that results in our conviction will some day sweep everything this court and this state represent away forever. . . We know that the future belongs to us."

EW YORK-The United States and Japan are openly girding for their coming conflict. The Militant reported. "In June 150 American battleships and 500 planes will maneuver over 500,000 square miles of Pacific Ocean in the most extensive naval 'games' in peacetime history. The government estimates the cost at \$1,250,000. In July the Japanese navy will play 'games' over the same area."

HIO-The National Unemployed League continued its task of organizing hundreds of thousands of workers to fight for union recognition and better conditions. In Alliance, Ohio, relief workers struck for grants of coal; in Waynesburg, for the right to organize; in New Lexington, mass picketing closed down all work projects in protest against a proposed wage-cut of 5 cents an hour.

CAPITALIST MANIPULATIONS CAUSE RISE IN FOOD PRICES

creases, there are numerous ways alternative but to buy higher in which the capitalists increase priced items. And if the higher their prices and evade the ceilings priced items have only a fake in an underhanded fashion.

The main form of hidden price rises is quality deterioration. While there is no increase in the price, the article is of a poorer quality than before. We have already mentioned the case of examples. You buy meat now and fat which were previously trim-

A variation on quality deterioration is "upgrading": the selling of an article of a certain quality at the price of a better quality product, and thereby evading the price law. The working class housewife has to pay Grade A prices for a Grade B meat.

Recently a prominent canning company placed a new "improved" soup on the market. The improved variety cost three cents a can more than the unimproved type. However, the only change in the can of soup was the label on it. It had the word "improved" in big letters printed across it. And that was the only place any im-

provement could be noted. A third way by which the manufacturers raise prices is by dropping cheaper lines of products and selling only more costly

Argentina

No recent action has more clearly exposed the hypocrisy of the Allies' claim that they are waging a "war for democracy" than the circumstances surrounding the abrupt shift in Argentina's diplomatic relations. The moment Argentina declared war upon the Axis, this so-called "fascist state" and "Nazy satellite" was welcomed into the company of the United Nations. Through Secretary Stettinius the State Department promptly announced that "normal diplomatic relations" would be resumed with the reactionary Farrell-Peron government. Argentina is expected to apply for admission to the San Francisco conference and it is reported that its request for a place among the United Nations will be backed by Washington.

Argentina's ruling class preferred to stay out of active participation in the war for the same general reasons of material interest which now make it expedient for them to enter the conflict. Until now the big capitalists, the ranchers and their government and military agents felt that they had much more to gain for themselves by remaining neutral.

This demonstration of independence on the part of a South American country was taken as an intolerable offense by the Yankee imperialists. Imitating the methods used by Hitler to whip the smaller European nations into line with Nazi foreign policy, the Allied powers set about to break down Argentina's neutrality. They exerted economic pressure; uttered threats of military intervention; ruptured diplomatic relations. These moves were accompanied by a torrent of inspired propaganda in the press, the movies and over the radio, whipping up popular sentiment against this holdout by depicting Argentina as the chief base of operations for the Nazi "fifth column" in the

Western hemisphere. Now this is in the process of being forgotten and forgiven, although nothing has been changed save the shift in the foreign affairs of Argentina's rulers. The iron fist of the Farrell-Peron military dictatorship still grips the throat of the Argentine people. The Argentine Socialist paper "Vanguardia" recently reported that there are "hundreds if not thousands" of political prisoners in Argentina's jails. Independent trade unions are outlawed, But all that counts for nothing in Washington's eyes. There is an equally conspicuous absence of democracy and freedom for labor in Argentina's neighbor, Brazil, not to speak of other members of the United Nations.

These examples show how easy it is, by the standards of the imperialist hypocrites and liars, to become transformed from a "fascist" into a "democratic" state. A simple and subservient declaration of war turns the trick.

Two Methods

The methods employed by the coal miners in conducting their negotiations with the operators stand in glaring contrast to the feeble, chickenhearted, defeatist routine which has become the standard practice of the leadership of the CIO and AFL. Compare, for example, the negotiations of the United Mine Workers with those of the United Automobile Workers-two of the most powerful unions in the country. Both unions have militant traditions. Both were built in the course of bitter struggle with the employers and their agents in the government. Tested in numerous battles, the membership of both organizations have demonstrated beyond question their fighting capacity and willingness to struggle.

It is an enormous advantage for union officials to enter negotiations knowing they can count on the support of a militant membership. The method of the miners is to use this advantage to wrest concessions from the bosses. Their representatives entered negotiations fully armed with a mandate to strike if the bosses rejected their demands. Negotiations were carried on in the open in full view of the public. There was no crawling or cringing before the profit-bloated coal operators or their political agents in Washington. And just to convince the skeptics that they aren't fooling, the miners began walking out of the pits when their contract expired in accord with their famous fighting slogan: "No contract, no work!"

Contrast this method with that of Thomas, Reuther and the entire top leadership of the UAW. In preparation for negotiations with the most arrogant, ruthless, union-hating gang of corporation pirates in the country, they iterate and reiterate their total, irrevocable and slavish adherence to the no-strike pledge. The auto barons are thereby handed a declaration of unconditional surrender at the outset. Thus disarmed in advance, the auto workers' demands are buried in the government's graveyard of grievances, the War Labor Board. After a year or more of stalling, the WLB hands down a decision-binding on the unions-rejecting the demands of the auto workers. By that time the contract has expired and the whole farce is begun all over again.

The final test of a method of dealing with the bosses is the results obtained. The method of the miners gets results because everyone knows they mean business. The method of Thomas-Reuther-Addes-Frankensteen leads to frustration and impotence. That is why the auto militants in the Rank-and-File Caucus are striving to rearm their union with those methods of militant struggle which built the UAW-CIO and made it the most progressive union in the country.

CIO And 'Peace Pact'

The CIO Executive Board meeting in Washington on April 12 has ratified the industry-labor "Peace Charter" which aims to extend the wartime no-strike, compulsory arbitration policy into the "post-war" period. This "charter" supports the "principle" of the profit system and endorses the 'right" of capital to exploit labor. As usual, the labor "democrats" denied their memberships their "right" to express any opinion.

In exchange for surrendering labor's birthright, the pact expresses the pious hope that "the fundamental rights of labor to organize and to engage in collective bargaining with management shall be recognized and preserved, free from legislative enactments which would interfere with or discourage these objectives."

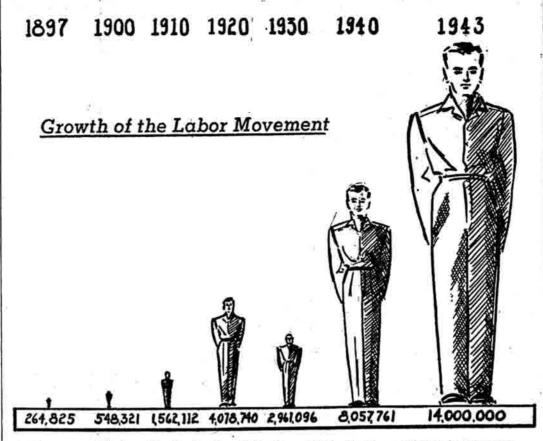

Only a few days before the CIO heads put their seal of approval on the "Peace Charter," a director of the National Association of Manufacturers disclosed that the employers were already advancing a "five-point" program of "legislative enactments," aimed at outlawing strikes and instituting a nation-wide open shop.

Despite the announced intentions of the employers to initiate an open-shop, strikebreaking campaign, the CIO labor "statesmen" rushed ahead with their "peace" plan which serves to disarm the unions in the face of the impending unionsmashing drive. The total bankruptcy of the top union officialdom has never been more glaringly

This policy of unconditional surrender in advance never won anything for the workers and never will. It is up to the union militants to organize around a program of struggle to defend the unions against employer-government attack. It is impossible to defend the gains of the unions or preserve their existence without first regaining independence of action. Rescind the no-strike pledge! Withdraw the union representatives from the employer-dominated War Labor Board! Build the Independent Labor Party!

These are the key points in a program that will rearm organized labor for the period ahead; reinspire the disillusioned ranks; and guide them in the inevitable battles with the bosses. Along this road the labor movement will not only be able to protect itself from the assaults of the employers and their agents but it can lead the masses forward to a progressive solution of their problems.

Growth of Unionism in the U.S.

Wants Program For Veterans

Editor:

revolution.

As a discharged veteran of the present war I have for some time been carefully watching The Militant for a statement of the Socialist Workers Party's attitude towards the veteran problem. Outside of some general statements and remarks I have not found any clearly formulated and definitive

I feel that the veteran problem s one of the major problems of post-war America. The labor movement has completely neglected the returning veteran. This is both an indictment and a warning for the AFL and CIO. Their neglect has been criminal. The dissatisfied and psychologically unstable veteran is, unfortunately, ripe material for the numerous proto-fascist and panacea movements which are bound to arise after the war. If the unions had not neglected the veteran, they would be in a position to channelize this discontent and frustration into constructive militant unionism. As it now stands, the veterans are entering the American Legion and Veterans of Foreign Wars in droves. There is no other organization they can turn

There is also the American Veterans Committee sponsored by the Nation-New Republic group. To my knowledge it has a small handful of followers and is of negligible importance. Thus the old reactionary organizations are swallowing up the veterans.

The veteran problem is definitely not a post-war problem. There and it is backed by clubs of are already over a million veterans. We cannot wait till demobilization day to formulate a program for the veteran. It must be done well in advance of that day, not only to be prepared for demobilization day, but also as a program for veterans already discharged.

The veterans of my acquaintance who have entered the factory and ference held in Chicago.

Greetings from Young earn in a week what they couldn't Stalinists Sanction earn in a month while in the service. They would just as soon Capital-Labor Pact put all women back into the Editor: kitchen. They are quite antagon-I have been reading your paper sistic to men who have managed to stay out of service. QUESTION BOX

Q: What evidence is there that small businesses have been squeezed out during the war?

A: The rate of industrial and commercial failures for the war years (1939 to 1943; figures for sors. 1944 not yet prepared) show an average of 10,531 failures per year. In the two preceding years failures were at the rate of 9,500 per year, or a thousand less. The first two years of the war alone resulted in over 25,000 business failures in America.

Q: What is the "Equal Rights"

the guise of legally declaring he had read it himself for a while women to have "equal rights" and in his opinion, "it stinks." with men, would really deprive hours and working conditions. Its the immediate future. sponsors come from big industry wealthy women.

Q: When was the IWW organized?

A: The Industrial Workers of country. the World were organized in 1905 are restless and discontented. Metal Workers, and a few local nations. They are antagonistic to women labor organizations at a con-

If anyone at the Earl Browder meeting held here in Cleveland April 6 had maintained with Marx and Lenin that "The history of all hitherto existing society is a history of class struggles," the president of the Communist Political Association would no doubt have refuted it in the same listless tone in which he refuted the

present class struggle. For an hour Browder tore into Senators Taft and Vandenberg (straw dummies to the 2,000 party people and sympathizers who gathered in the Masonic Auditorium). It seems that these two arch-reactionaries had the temerity to skeptically question the motives of the recent Japangoodbye now. Yours for the American anti-labor and incipient ese-Soviet breach. This disbelief was, to the CPA, tantamount to a betraval of the Allied cause

was the CPA's sanction to the CIO, U. S. Chamber of Commerce and AFL peace treaty which gives capital the right to exploit, and labor the right to be exploited-peacefully. "Labor must seek more col-

laborators of this kind," Browder counseled, doing Eric Johnston the distinct disservice of being called a "collaborator." Of course no meeting of the

Communist Political Association would be complete without slandering the miners. Elizabeth Gurley Flynn, one-time an honestly devoted leader of labor, had the gall to oppose the miners' struggles for higher wages and better working conditions not on the basis of their economic or political maturity, as the Stalinsts have done in the past, but because of their "mental backwardness!"

If the miners are MORONS for fighting their exploiters, so were the Russian masses in October. 1917, the French proletariat in 1789 and 1848, and the entire world working class who will inevitably overthrow their oppres-

The Communist Political Association has now openly declared war on the U.S. working class.

Profiteers Scuttle OPA Plan For Cheaper Clothing

Early last February the WPB and OPA simultaneously announced they were putting into effect orders which would grant priority to low-cost clothing production and reduce price ceilings for clothing the average wage-earner buys.

But don't look for any lower-priced clothing. The extile and clothing manufacturers have already blasted this program full of holes. Through the revision of a clause here and the trimming of a phrase there, the WPB and OPA orders now look like a program of price-raising. For one thing, the WPB's priority order applies to

the clothing and not the textile industry. The clothing manufacturers can produce lower-cost clothingif the textile manufacturers give them lower-cost materials. But the textile manufacturers are saying -nothing doing. The original OPA price-ceiling order fixed as the

base period for determining prices the last six months of 1942 and the first six months of 1943. Now it is based on the period of 1943, when profits and prices were much higher. In fact, from April 1943 through December 1944, clothing prices, according to the extremely conservative government figures, rose 16 per cent.

The OPA price order, however, which was supposed to bring cheaper clothing by this fall, hasn't yet gone into effect. It is still being "formulated"-that is. revised continually under the pressure of the textile and clothing manufacturers, aided by their Congressional hirelings.

A "hearing" on the low-cost clothing program was scheduled for next Monday before a subcommittee of the Smith House Select Committee, which is supposed to investigate the acts of government agencies which "exceed their authority."

Representative Howard W. Smith, of Virginia, heads the committee. He is the author of such antilabor legislation as the Smith-Connally Anti-Strike Law and Smith "Gag" Act. He is also a notorious friend of the textile manufacturers. His committee is going to "investigate" in particular a charge made by the head of the American Wool Council that the low-cost clothing program is aimed at "regimenting the textile and clothing industries." What do you think Smith's committee will "find?"

Westinghouse Electric Linked to Nazi Cartels

On April 12, the War Labor Board rejected the wage-increase demands of 200,000 members of the CIO Electrical and Radio Workers, including Westinghouse Electric's employes. This decision conformed to the demands of Westinghouse Electric, which has been making phenomenal profits during the war.

On the same day that the WLB did this chore for Westinghouse, the Department of Justice filed a civil suit against the company in Federal District Court, Newark, N. Y. The charge: maintaining a restrictive international cartel agreement with two German corporations which blocked the expansion of the electrical industry in this country during wartime.

The Department of Justice doesn't want the Westinghouse officials shot for treason or even sent to jail. All it wants is that the court declare illegal Westinghouse's contracts with the two Nazi firms, Siemens-Schuckterwerke and Siemens-Halske This contract But the finale to this speech divided up the world market between the American and German corporations.

Particularly, the government is begging the court to compel Westinghouse to release vital patents and information which the company has been withholding in order not to "violate" its cartel agreements.

How Government Aids The Aluminum Monopoly

When workers, driven by intolerable conditions, go on strike, all the forces of capitalist government are used to crush them and whip them back to work. But when a powerful corporation deliberately blocks war production to maintain its monopoly and superprofits, what happens? Well-look at the Aluminum Corporation of America! Testifying on April 11 before the Senate Small

Business Committee, Will Clayton, Assistant Secretary of State and former high official of the Reconstruction Finance Corporation, admitted that when an aluminum shortage for planes existed last year, ALCOA was an "unwilling seller" to the government. It opposed the utilization of existing idle plant facilities in this country because "it would have no post-war interest in a greater capacity than 5,000,-000,000 pounds." "Therefore," Clayton stated, "ALCOA felt that

facilities which might be added for the war demands should be paid out of the proceeds of the aluminum sold (to the government) and that it was not in a position to finance more facilities." Instead, Federal Loan Administrator Vinson, acting

on the instructions of the War Production Board, last month signed an agreement to purchase 250,000,000 pounds of aluminum from ALCOA's Canadian subsidiary. This was an extremely profitable deal for ALCOA, because of its cheaper labor and taxes in Canada. A large part of these Canadian facilities were financed by the Reconstruction Finance Corporation.

The government contract with ALCOA guaranteed to buy a minimum of 100,000,000 pounds of aluminum even if the need should be only 1,000,000 pounds. The contract further agreed to pay a 3-cent-a-pound premium over the base price because "if production costs went down the aluminum would cost us less." This never happened.

ALCOA was permitted to use its own auditor, as Clayton admitted, and the government never found out what the production cost of the aluminum was. "We wanted an independent auditing firm, but they

Vinson signed the contract, he said, because "a manpower and fuel shortage exists in the U. S." But Representative Walt Horan, of Washington, frankly told the Senate Committee that ALCOA had a big labor turnover because of its vicious "labor policies." "It's high time-they raised their standards so the
